PART I.

Proceedings of the Government of His Highness the Maharaja of Mysore, Land Revenue, dated 3rd January 1908.

READ AGAIN—

Government Proceedings No. R. 724-34—R. F. 82 of 1896-97, dated the 29th August 1903, laying down rules for assessing the occupied vacant building sites and sites occupied by houses and backyards (or *hittals*) attached thereto.

READ—

Subject No. 78 of the Proceedings of the Representative Assembly of 1906, regarding the modification of the above order in certain respects:—

Summary of discussion.—Hittal tax may not be levied where the extent of the hittal is below 20 guntas.

The present limit prevents people from having sufficiently large compounds round their houses. It tends to make the houses insanitary, and they cannot conveniently store their food grain.

In the malnad much larger compounds than in the maidan are necessary. Besides this, under the present rules, even for small bits adjacent to the house, separate assessment is levied. The minimum hittal tax is 8 annas, and so if a man has a number of such hittals, even of a very small extent, he has to pay 8 annas for each. The extent of 10 guntas of vacant site now allowed to be held free is not sufficient in malnad tracts. The concession may, it is requested, be extended to 30 guntas. As the minimum rate of tax on vacant sites and hittals is now annas 8, it sometimes happens that the same amount of tax has to be paid by the owners of small bits of land as by those who own lands of one acre. It is therefore requested that the excess over the minimum area may be assessed at annas 4 when the whole is within 20 guntas and the rates reduced to 2, 4 and 8 annas according to the extent of hittals. When a person possesses more than one hittal, the aggregate extent of such hittals may be calculated and assessed.

The levy of a tax of 8 annas on vacant sites measuring less than 10 guntas is causing much hardship to the poor raiyats. It is therefore prayed that the tax may be reduced in the case of sites measuring less than the above limit.

Vacant building sites and hittals within the precincts of the village sites are taxed. The levy of this tax is a hardship to the raiyats and khatedars. It is therefore requested that the tax may be remitted.

Reply of Government.—As the new scheme has been directed to be tried for another two years, a fresh representation may be made after the expiry of that term. The request that the minimum to be paid, which is now fixed at annas 8, should be reduced, and the rules revised so as to exempt 10 guntas in the aggregate, is noted for favorable consideration.

ALSO—

Letter No. Camp 95, dated the 4th October 1907, from the Revenue Commissioner in Mysore, submitting his opinion in the matter together with the opinions of the Deputy Commissioners.

No. R. 4013-22—L. R. 332-06-4, DATED BANGALORE, 3RD JANUARY 1908.

ORDER THEREON.—Having given the matter their best consideration, Government direct that clause (ii) of para 2 of the Government Order read above, under which lands in village sites occupied by houses and backyards (or *hittals*) attached thereto are exempt from taxation when the area of each such site does not exceed 10 guntas, needs no alteration in the case of the maidan parts of the State, that in the malnad parts the extent to be allowed free of tax be raised from 10 to 20 guntas, and that the minimum rate of assessment leviable on the excess over 10 guntas in the maidan and 20 guntas in the malnad be reduced from 8 to 4 annas. If a person owns two or more separate *hittal* sites in the same village, their aggregate extent will be taken into consideration in levying the assessment as above.

2. As regards building sites under occupancy but on which houses have not been built, Government agree with the Revenue Commissioner that the minimum rate of assessment need not be reduced to 4 annas.

Representative Assembly Subject No. 91 of 1905 and the reply of Government thereto regarding the grant of relinquished lands in the Sagar Taluk for cultivation under Cowle Rules,

2. Correspondence ending with letter No. 3320, dated the 5th September 1907, from the Revenue Commissioner in Mysore, stating that as regards resigned garden lands, the concession allowed by Rule 7 of the Rules contained in Appendix I of the Land Revenue Rules is sufficiently liberal and even more favourable than what the Representative Member has asked for, and that as regards resigned wet lands, some concession as suggested by the Member may be necessary and that each case may be dealt with individually on its merits under Rule 44 of the Land Revenue Rules.

No. R. 4379-81—L. R. 579-05-5, DATED BANGALORE, 17TH JANUARY 1908.

ORDER THEREON.—In order to encourage the cultivation of the large extent of unoccupied assessed lands existing in the Sagar Taluk, the Representative Member proposed that the relinquished lands may be given out for cultivation free of assessment for three years, at half the assessed rates for three more years, the entire amount of kandayam being payable after six years. It is not clear whether the proposal applies to garden lands or wet and garden lands. As far as garden lands are concerned, Government believe that with the abolition of the Halat and the liberal policy which it has been decided to adopt regarding garden lands, a demand for such lands as may be lying waste will be gradually created and that there will thus be a natural expansion of garden cultivation. In the case of gardens which have remained unoccupied from any cause for more than three years, the existing Rules 7 and 8 of Appendix I to the Land Revenue Rules provide for far more liberal concessions than are proposed by the Representative Member himself, and Government are of opinion that these concessions with the other advantages which have now been secured to garden cultivation, if freely granted, will tend to give the necessary impetus to the expansion of the industry. Government, however, feel doubtful whether the liberal concessions allowed by those rules are sufficiently known to the inhabitants of the malnad, and Revenue officers would do well to draw the attention of the raiyats to them and encourage them to apply for and obtain the lands on the terms specified.

2. In the case of wet lands, if there are any special circumstances which would call for special treatment there is already provision in Rule 44 of the Land Revenue Rules for such cases.

READ—

Letter dated the 31st August 1907, from the Secretary to the United Planters' Association of Southern India, forwarding copy of the resolution adopted at the annual meeting of the Association held in the beginning of the same month, to the effect that the position of prospective rubber planters in Mysore is unsatisfactory, and that the Government should remove the disabilities under which the rubber planting industry is at present labouring.

2. Letter from the Revenue Commissioner in Mysore, Camp No. 62, dated the 22nd September 1907, submitting the statements received from the Deputy Commissioners of the Hassan and Kadur Districts, giving particulars of the applications for lands for rubber cultivation granted, refused and pending disposal.

No. R. 4695-9—L. R. 98-07-5, DATED BANGALORE, 27TH JANUARY 1908.

ORDER THEREON.—It is not clear from the representation what the precise nature of the grievance is, which the North and South Mysore Planters' Associations desire to bring to the notice of Government in the working of the existing rules relating to the grant of lands for rubber cultivation. These rules were first issued under Government Proceedings No. R. 3474-84—L. R. 226-06-1, dated the 28th September 1906. They were subsequently modified by Government Order No. R. 9358-69—L. R. 226-06-11, dated the 16th April 1907, so as to permit alienations under certain conditions with the object of enabling applicants to raise the necessary capital. In order to afford to intending applicants an opportunity of knowing what lands would be granted, the Conservator of Forests was directed to publish in the Gazette, lists of all lands which it was considered necessary to reserve in the interests of the Forest Department. This the Conservator has done. With a view to afford further facilities to applicants, Government have also directed in their Order No. R. 9153-62—L. R. 226-06-9, dated the 10th April 1907, that in case applications are made for lands included in the list of reserved lands so published, the Deputy Commissioners should report such cases to Government with the reasons for reserving such lands, so that they might decide whether the lands could be given out for rubber cultivation without detriment to the forest interests of Government.

2. From the lists submitted by the Revenue Commissioner, Government find that, in the following cases, applications were rejected in the interests of forest conservancy :—

		S Nos. 45 and 46	Yedahalli	

Proceedings of the Government of His Highness the Maharaja of Mysore,

The Conservator of Forests states that the lands included in the Gangegiri reserved block are well wooded, containing a fine growth of jambe, matti, nandi and other valuable species; that the compactness of the block would be seriously affected by the grant of the area applied for; that the area included in the Balur reserved block is a dense ever-green forest containing ebony and other valuable trees; and that the grant of such lands is also prohibited by Government Order No. R. 3474-84—L. R. 226-06-1 of the 28th September 1906.

As regards the lands intended to be included in the Hebbe Block, the reservation of which has not yet been notified, the Conservator states that Mr. Pilkington has been informed that there is no objection to the grant of Survey Nos. 27 and 28 of Hebbe and of that portion of Survey Nos. 37 and 42 which is situated between the Hebbe-Chikmagalur road and Samavahini river, embracing in all an area of about 300 acres; and that the other lands cannot be granted as they contain valuable timber.

3. The majority of the above applications were, however, rejected prior to the issue of the Government Order of the 10th April 1907 referred to above. If in any of these cases the applicants are still not satisfied with the grounds on which their applications have been rejected, Government will, on a proper representation being made, be prepared to consider each individual case separately on the lines laid down in the Government Orders.

4. From the statements referred to above, it is observed that prior to the issue of the Government Order of the 28th September 1906, there had been received 11 applications in the Hassan District and 26 applications in the Kadur District for the grant of lands for rubber cultivation. Out of the 11 received in the former district, 8 have been withdrawn, 2 applications for 120 acres and 32 guntas have been sanctioned and one applicant for 85 acres having requested that the land might be granted to him for coffee cultivation, the Revenue Commissioner has issued orders for the disposal of the same by sale. Out of the 26 received in the latter district, 5 applications have been withdrawn, 1 has been ordered by the Revenue Commissioner to be returned on the ground that the applicant has asked for the land being granted to him for coffee cultivation, *11 applications for about 4,850 acres have been rejected, 7 applications for about 2,045 acres have been granted and 2 applications from one applicant are pending the receipt of certain information called for from him.

* Extent not mentioned in 3 cases

5. Out of the 11 applications received in the Hassan District subsequent to the issue of the order of 28th September 1906, 2 have been withdrawn, 1 application for 12 acres and 32 guntas has been rejected on the objection of the villagers about the insufficiency of the gomal land, another for 79 acres and 34 guntas has also been rejected by the Revenue Commissioner but no reasons have been given, 1 application for 40 acres has been sanctioned and 6 applications are pending (4 with the Amildar, 1 with the District Forest Officer, and 1 with the applicant). Out of the same number of applications, *viz.*, 11 received in the Kadur District, 4 have been withdrawn, 1 has been partly rejected on the ground that the portion of the land contains valuable timber, 3 applications and part of another application are pending (2 with the District Forest Officer and the rest with the Amildar for enquiry and report).

6. The Conservator of Forests states that no lands were reserved after applications for the same had been received, and also points out that the difficulty to obtain suitable lands for rubber cultivation is chiefly due to the fact that all available and suitable lands have already been taken up for coffee cultivation.

7. It will thus be seen that the rules themselves provide sufficient facilities for obtaining lands which may be required for cultivation and which may be granted without detriment to the other interests of Government. The Government have also repeatedly impressed on their officers the importance of speedy disposal of all such applications. Government have no doubt that the planters themselves will admit that there are areas, the reservation of which on climatic and other grounds must be paramount to every other consideration and that it would be inexpedient to issue any general rules regarding the grant of lands included in forest reserves.

Land Revenue, dated 27th January 1908.

The safest course is to consider each case on its own merits. Government are always prepared to entertain favourably applications for lands, the grant of which will not be detrimental to the interests of forest conservancy or the preservation of springs at the head-waters of streams, or be attended with any serious physical effects.

8. It is noted that the application pending with the District Forest Officer, Hassan, is dated the 21st November 1906, and that those pending with District Forest Officer, Kadur, are dated October 1906. The officers concerned should be asked to expedite the submission of their reports. They must be instructed to pay prompt attention to applications for land for rubber cultivation. Of the 4 applications pending with the Taluk Officers in the Hassan District, 2 are nearly a year old and the others were received in April and May 1907. Of the 2 pending with the Amildars in the Kadur District, 1 was received in October 1906 and the other in July 1907. The Revenue Commissioner is requested to issue needful instructions for the speedy disposal of these applications.

Proceedings of the Government of His Highness the Maharaja of Mysore.

No. R. 4343-51—Agri. 12-07-6, dated Bangalore, 15th January 1908.

Order.—The question of organizing a system by which the outturn of harvests may be estimated, and a final forecast of crops prepared and issued annually, has been under consideration of Government for a long time. So far back as 1893, the attention of Government was invited to the system that was adopted in this respect in British India; but it was then considered premature to introduce the elaborate system in vogue in British India into the State, as there was no regularly organized and separate Agricultural Department which would be able to direct the enquiries to be conducted to ascertain the standard local rates of produce for the various descriptions of crops by a careful study of the settlement papers and by means of fresh experiments on an organized scale during a series of years. At present the only crops, with reference to which any such standards have been fixed are cotton and wheat with regard to which regular forecasts are prepared and sent to the Government of India for incorporation into the statistics issued by them. But neither of these may be regarded as the staple products of the State. It is therefore very necessary to fix such rates in respect of the more important crops of the State, so that there may be data available for purposes of comparison in judging of current agricultural conditions and issuing regular forecasts.

2. The difficulties which originally existed in the way of instituting the necessary enquiries have been removed to a great extent by the measures that have been adopted for improving the efficiency of the Revenue Department and as the Revenue Commissioner is also the Director of Agricultural and other Statistics, he will be able to direct and control the operations started for the purpose. A standard of literacy has been prescribed for shanbhogs which will have the effect of raising their general competency, and duly trained shekdars are being employed wherever possible. The local revenue agency has become more familiar with the methods of collecting statistics and checking them so as to make them as reliable as possible. Government therefore consider that the time has arrived for taking some steps for ascertaining standard outturns of crops. It is no doubt true that the fixing of an accurate or even approximate standard of normal outturn of each staple crop is beset with great difficulty, as the yield of every crop varies with the nature of the soil, the seasons, facilities for irrigation and the quantity of manure used, etc., and that to secure any great degree of accuracy a specially trained establishment may be required. When agricultural associations are started or properly trained Agricultural Inspectors are appointed, Government will consider whether this work cannot be done through them.

3. Pending these arrangements, as a first step in this direction, the Amildars should, as suggested by the Revenue Commissioner, be directed to get the necessary information by actual experiments or by local enquiries in a sufficiently large number of cases spread over all the hoblis in their taluks, record the result in each case and then fix the standard rates of produce of different crops for their taluks. The Sub-Divisional Officers and the Deputy Commissioners should examine the taluk figures and make corrections, if necessary, and prepare district averages. A standard for each crop for the whole State will then be arrived at by the Revenue Commissioner. Such a standard may not be very accurate but will be a fair approximation and can be revised as experience is gained.

4. After the standard of normal outturn for each crop is thus fixed, the forecasts, provisional and final, will be prepared in the annexed form, the necessary details as to area under each crop, etc., for Government villages being available in the Village Account Form No. 3 (Pahani Tahkta). As regards Inam villages, the Inamdars or their shanbhog should be called upon to furnish the information and the Amildars should check it as far as possible with the results of adjoining Government villages.

5. In dealing with the calculation of areas, the following points should be borne in mind:—

(1) The general rule should be that the returns should exhibit the areas actually sown, whether the crop comes to maturity or not. The failure of the crop should affect, not its area, but its outturn. An exception to this rule will, however,

be made when fields, owing to the failure of the first sowings, have been devoted to other crops. In this case, the area first sown with the forecast crop may be omitted.

(2) In the case of areas covered with mixed crops, for purposes of the forecast, it is sufficient to show the area covered by the forecast crop exclusive of the area covered by the other crops with which it is mixed, for however rough the estimate of the area of the forecast crop may be, it will be nearer the truth than a return of the area of the whole mixed field as the area covered by the single forecast crop. The area thus exhibited should embrace not only Government lands and lands of Inam villages, but also minor Inams situated in Government and Inam villages.

6. As it is usual to indicate the percentage of yield in annas, the local authorities may adopt it as the standard, the yield of each crop being shown in annas, the full crop being taken at 16 annas. If the yield is only ¼ of the usual outturn, it should be noted as 4 annas and if one-half, as 8 annas, and so on. If the crop is a bumper one, the yield may be entered as 17 or 18 annas subject to a maximum of 20 annas. In calculating the average, care should be taken that it is not the average obtained by dividing the total number of annas by the total number of the rates, but the average obtained by dividing the total value of annas by the number of acres. For instance, if the area obtained under each rate in a village is as shown in the margin, the average yield should be taken as 9¾ annas which is the result obtained by dividing 19,500 annas by 2,000 acres, and not 9 annas which will be the average obtained by dividing the total number of annas (36) by the number of rates (4).

Acres		Ragi Rate	Annas
300	×	3	900
500	×	10	5,000
800	×	11	8,800
400	×	12	1,800
2,000			19,500

7. In furnishing the returns to Government, however, the figures quoted may be brought into conformity with the American notation, 100 being taken to represent a normal crop and the estimated outturn being represented as a percentage of that crop. In the case of crops for which forecasts are prepared, the following additional information should be furnished in the statement showing the standards of normal crop outturn :—

(i) The normal acreage for each district under each crop.

(ii) The Provincial normal outturn per acre, in the case of crops for which different normal outturns have been fixed for different districts or groups of districts, with an explanatory foot note showing the method of calculation.

8. The Revenue Commissioner may issue any subsidiary instructions that may be considered necessary in the matter. The first return required to be submitted under this order should reach Government before the end of October next.

Proceedings of the Government of His Highness the Maharaja of Mysore,

READ—

Annual report for the year 1906-07, submitted by the Agricultural Chemist to the Government of His Highness the Maharaja of Mysore, with his letter No. 185, dated the 30th August 1907.

No. R. 4382-91—AGRI. 27-07-2, DATED BANGALORE, 17TH JANUARY 1908.

ORDER THEREON.—Recorded.

2. The bulk of the work done by the Agricultural Chemist during the year chiefly consisted of analysis in the laboratory and experiments in cultivation in the Experimental Farm. Of the analytical work done, excepting that conducted on behalf of the Geological Department, the rest has been chiefly devoted to testing and comparing the results of the experiments carried on in agricultural investigation. A small part of it has also been conducted in connection with the analysis of famine foods. The results obtained from the latter are not likely however to be of any immediate practical utility, as, beyond determining the chemical composition with special reference to the constituents thereof on which their nutritive value depends, no other information has been collected as to the effects of their prolonged use on the human constitution, and the extent to which they may be depended upon in seasons of scarcity to supplement the ordinary supplies of food. Government note that since he began the work, the Agricultural Chemist has analysed 73 specimens.

3. In the Agricultural Farm the Agricultural Chemist has continued his investigations into the growth of sugar-cane and the relative importance of the several factors on which it depends. He has also been endeavouring to test the relative values of the several processes in the manufacture of sugar and has instituted an interesting comparison between the Hadi system of manufacturing sugar and the local system adopted by the raiyats. He is of opinion that if the raiyats could be induced to manufacture sugar directly from sugar-cane instead of converting into jaggory first, it will be possible to produce sugar of good quality with the ordinary methods. He considers that the time taken in milling and boiling with the primitive mills and contrivances in use greatly diminishes the quantity of sucrose and if by means of machinery the harvesting, the boiling and clarification of sugar could be done more expeditiously, a great deal of loss caused by chemical changes in the juice apart from the waste due to primitive methods of manufacture could be avoided. Government have already expressed their willingness to help as far as possible any enterprising sugar-cane cultivator or a syndicate who would undertake to get the necessary plant and erect a sugar-house. Government believe that such a course will be attended with greater advantages than if a sugar-house is started by Government for working the small quantity of sugar-cane grown on the Farm even though when the machinery is not at work it is utilized for milling the sugar-cane of other local producers.

4. The Agricultural Chemist does not consider his observations regarding drainage, soil and manure and the influence of several substances used in the manufacture of sugar, as anything more than preliminary deductions from which final conclusions can be drawn only after a long course of further experiments. In view of this, Government have already directed that the experiments hitherto conducted and the results obtained should be issued in the form of a Bulletin, couched in language easily understood by the people, so as not only to give connected information to intending investigators, but also to enable the agricultural classes themselves to understand the results of these experiments. The Agricultural Chemist is requested to expedite the preparation of this Bulletin.

5. Government note that in the case of ragi, the results of the year could not be given in the report, as the grain had not been thrashed.

6. The phenomenon, brought to notice by the Agricultural Chemist in the case of paddy, of promising plants failing to form grain after they had shot into ears by becoming overloaded with starch is frequently met with in the case of paddy, and Government consider that the Agricultural Chemist should devote further study o it.

Revenue (Agriculture), dated 17th January 1908

7. Government have read with interest the accounts of the Agricultural Chemist's experiments into the conditions on which soil moisture depends and its influence on the growth of plants. They also observe that in the year under review pot-culture experiments made considerable progress and that the Agricultural Chemist has been trying to obtain the soil containing the smallest percentage of the particular fertilizer whose influence he wishes to determine and that during the year the effects of bonemeal as acted upon by leafmould and begasse were investigated.

8. The experimental side of the Agricultural Chemist's work has been satisfactorily attended to. Similar attention to a study of local conditions beyond the limits of the Experimental Farm is also desirable. His tours in the State have been much less extensive than in the previous year. There is scope to utilize the services of some of his Assistants who should be also trained to carry on agricultural improvements in addition to analytical work.

9 The Agricultural Chemist was deputed to attend the Rubber Exhibition held in Ceylon in September 1906 and the meeting of the Board of Agriculture in India held at Cawnpore in 1907. Government are glad to observe that Dr. Lehmann's work in connection with the sugar-cane industry and the standardization of fertilizers was highly appreciated.

10. Government sanction the issue of an easily intelligible summary of the report in Kannada, divested of difficult technical details which may confuse the class of readers for whom it is chiefly intended.

Proceedings of the Government of His Highness the Maharaja of Mysore, Forests, dated 17th January 1908.

Subject No. 186 discussed at the meeting of the Dasara Representatives held at Mysore in October 1906 :—

Summary of discussion.—Bamboo is abundant in several parts of the Shimoga District. As the demand for it is comparatively small and the cost of preparing it for the market is great, the income derived is little. Moreover they are destroyed once in sixty years when they attain their fullest growth. When they dry up, they are of no use, but give room to jungle fire. As the time of its destruction is now approaching, it is requested that bamboos may be granted free for constructing houses and agricultural and other similar purposes.

Baskets, etc., required for agricultural purposes in malnad are prepared out of reed bamboos and sold. Licenses have to be obtained, which is a hardship to people as reed bamboos are not valuable. Professional basket-makers may therefore be permitted to remove them without a license, or arrangements made so that licenses may be obtained from the patels or subordinate Forest officers.

To poor agricultural raiyats who build houses on sanitary principles, wood and bamboos may be given free.

Reply of Government.—Rule 7 of Malnad Raiyats' Privileges Rules of 1896 permits raiyats to remove thorny bamboos for hedges and fences, and rule 5 provides for the free removal of bamboos for cattle-pens, sheds, pendals, small huts and machans to be put up in fields and for stack floors. The question whether any discretion should be given to Deputy Commissioners to allow the grant of building materials to poor agriculturists will be referred to the Revenue Commissioner, the Conservator of Forests and Deputy Commissioners for opinion.

2 Letter No. 2549, dated the 15th August 1907, from the Revenue Commissioner in Mysore, forwarding with his opinion the replies received from the Conservator of Forests and the Deputy Commissioners of Districts on the subject.

No. R. 4392-401—FTS. 130-06-5, DATED BANGALORE, 17TH JANUARY 1908.

ORDER THEREON.—Under rule 8 of the Raiyats' Privileges Rules of 1896, raiyats in the malnad are now allowed to procure wood and bamboos required by them for building purposes at special rates. The Representative Assembly members from the Shimoga and Hassan Districts requested that these may be given to the poorer raiyats free of cost. The opinions of the Revenue Commissioner, the Conservator of Forests and the Deputy Commissioners of Districts were invited as to whether any discretion may be given to the Deputy Commissioners to give a free grant to the poorer agriculturists.

2. Excepting the Deputy Commissioners of Kadur and Hassan, who are in favour of free grants to poor raiyats, the other officers are of opinion that the existing rates are sufficiently liberal and that no further concessions are really required. The Conservator of Forests and the Revenue Commissioner, however, consider that bamboos may be given free for the next two years, and the Revenue Commissioner further proposes that as reed bamboos form a very minor item of forest revenue they may be allowed to be taken free. In the case of wood, the Revenue Commissioner suggests that Deputy Commissioners or Sub-Division Officers may be empowered to grant a limited quantity from the nearest depots at the actual cost of collection by the Department to such raiyats as do not own carts. The Conservator however thinks that raiyats would not buy timber from the depots even if it is sold at the actual cost of collection by the department, as it would be very much cheaper for them to get it free and borrow carts to bring it or carry it by head loads.

3. Under the circumstances, Government consider that no change in the existing rules and practice seems called for. The Revenue Commissioner will inform the Representative members accordingly.

No. R. 4706—R. M. 141-07-1, DATED BANGALORE, 28TH JANUARY 1908.

ORDER.—The attention of the Revenue Commissoner is invited to Subject No. 215 of 1907 and the reply of Government thereto as noted in the margin and he is requested to take needful action to give effect to the promise conveyed in the reply of Government.

SUBJECT No. 215.

Orders to be passed in Kanarese by Deputy and Assistant Commissioners.

Mr Venkataramaiya, Channarayapatna Taluk.

Summary of discussion.—Final orders on records, and even those on takrar and namtabdil takhtas are being passed in English. Though separate endorsements in Kanarese are granted to parties, it is sometimes necessary to obtain copies of such orders. Owing to want of English-knowing persons in villages, difficulty is felt in knowing what the orders are; and this often leads to the expiry of the time allowed for appeal. Strict orders may therefore be issued to all District and Taluk officers to pass their orders in Kanarese, or to attach to the records a Kanarese translation of the same.

Reply of Government.—Instructions will be issued for Kanarese translations of orders being furnished.

Proceedings of the Government of His Highness the Maharaja of Mysore,

READ—

Para 37 of Mr. Basu's review of the progress of revenue and expenditure in the State from 1894-95 to 1903-04 observing that the expenditure under "Law and Justice" was comparatively heavier in Mysore than in the British Indian Provinces.

2. Government Order No. J. 1400-1406—Cts. 103-06-3, dated 27th November 1906, ordering certain retrenchments in the cost of the Judicial Department in Mysore.

3. Para 13 of Government Order No. Fl. 6050—280-04-55, dated 6th February 1907 referring to the Chief Court the remarks of Mr. Basu regarding the shrinkage in the receipts of Law and Justice and their comparative smallness in Mysore as compared with the receipts in British India.

No. Fl. 3203-4—G. F. 343-06, DATED BANGALORE, 7TH JANUARY 1908.

ORDER THEREON.—It is observed that the retrenchments recently effected in the Judicial Department have resulted in a considerable reduction of expenditure but the proportion of the cost of Judicial administration in Mysore appears to be still somewhat higher than in British * India. As pointed out by the Chief Court this difference is, to a great extent, due to the fact that in Mysore a comparatively larger proportion of the salaries of officers and establishments of the Revenue Department is charged to Law and Justice than is the case in some of the provinces of British India, the Madras Presidency for instance.

* *Vide* Statement appended.

2. A comparison of the Land Revenue charges debitable to Law and Justice in the provinces of British India and in Mysore will show that the proportion is different in different provinces and that this difference is due to two causes, *viz.*, (1) in some provinces separate agencies are employed for most of the criminal work, thus reducing the share of judicial work done by the Land Revenue Officers and the proportion is determined by a rough estimate of the amount of criminal work done by the Revenue staff; (2) in others, the proportion is calculated only on pay, as the debits on account of the cost of travelling allowances and contingencies are made direct to Law and Justice instead of through the head Land Revenue.

3. On a consideration of the proportions in which these charges are shared between the different departments in the British Provinces and in Mysore, Government are of opinion that the proportion of the debit to Law and Justice on account of taluk establishments in Mysore is disproportionately large and that only one-fourth of the cost of taluk office establishments instead of one-half, as at present, should in future be debited to Law and Justice. This arrangement, which is expected to reduce the Law and Justice charges in Mysore without unduly raising the percentage of cost of Land Revenue Collection, will be brought into force with effect from the next year.

4. The comparative smallness of receipts under Law and Justice, pointed out by Mr. Basu, is attributed by the Chief Court to general slackness of business due to the plague and to the decline of the coffee industry and Government are of opinion that no orders are called for in the matter.

READ—

Comptroller's letter No. 3234, dated the 14th December 1907, submitting the Annual Report on the working of the Savings Banks in Mysore for 1906-07.

I have the honor to submit my Report on the working of the Mysore Government Savings Banks for the year 1906-07 with the returns and statistics usually appended to it.

2. *The annual returns received from District Treasuries.*—The time allowed for the preparation of these returns was extended by one month to enable the Treasuries to prepare them more correctly, and thus obviate the necessity for entering into further correspondence with them for the reconciliation of the differences and discrepancies which invariably occupied a month or two. The 10th of September was accordingly fixed as the due date of submission of these returns instead of the 10th of August as heretofore. Nevertheless, there was a few days delay in some of the Treasuries and the statements were not free from errors and omissions as was expected. To minimize correspondence and prevent further delay the Savings Bank accountants of the Mysore and Bangalore District Treasuries were sent to this office with the Treasury books for explaining or reconciling the differences noticed.

3. Statement I shows the dates on which the district annual statements were received and those on which this office after obtaining the requisite explanation finally passed the statements. A comparison of this statement with the previous years will show that notwithstanding the fact that the statements were received about the latter half of September 1907 this office was able to complete the work by about the end of November 1907.

4. *General results.*—The leading facts of the Savings Bank transactions for the year under review are summed up in statement II in which the figures for the preceding year are given for purposes of comparison.

The opening balance inclusive of Dead Accounts was at the beginning of the year Rs. 95,59,889, the amount deposited during the year was Rs. 27,78,319 and the amount withdrawn Rs. 55,57,898. The total amount credited on account of interest on both the active and the revived accounts was Rs. 2,33,405. There was thus a decrease of Rs. 25,46,174 in the net liability of Government on account of deposits during the year, and the total liability was reduced from Rs. 95,59,889 at the beginning of the year Rs. 70,13,715 at its close. Twenty lakhs out of this reduction represents the deposits at credit of the accounts having balances in excess of Rs. 5,000 which were converted into the 4 per cent State loan opened during the year in accordance with the terms of the loan (*vide* Government Order No. Fl. 1509—280-04-37, dated the 15th August 1906), and the remainder the excess of withdrawals over the amount deposited and that credited towards interest during the year. The marked decrease in the total amount deposited during the year which is less than that of the previous year by over 12 lakhs is apparently due to the lower limits placed on annual and total deposits from 1st October 1906.

5. *Number of accounts.*—The particulars in district details of the number of accounts closed during the year, those treated as Dead Accounts and those revived during the year are also shown in Statement II.

6. The number of new accounts opened during the year was 2,506 or 533 less than that of the previous year. The reduction which is noticeable in all the districts ranges from 15 in Kolar to 137 in Bangalore. Deducting the number of accounts revived from the total of the accounts closed and transferred to dead accounts, the

net transfer from the active list amounted to 2,962 against 2,118 in the previous year. This increase of 844 is shared by all the districts except Shimoga and Kadur as detailed below :—

	Increase	Decrease
Bangalore	108	...
Kolar	260	..
Tumkur	146	...
Shimoga	...	21
Kadur	..	36
Chitaldrug	100	. .
Mysore	135	...
Hassan	152	...
Total ...	901	57
Increase ...	844	...

7. The working of the Banks has thus resulted in a net decrease of 456 in the total number of active accounts which was 15,159 on the 30th June 1907. This decrease is distributed as follows :—

	Increase	Decrease
Bangalore	196	.
Kolar	.	228
Tumkur	...	112
Shimoga	..	46
Kadur	18	...
Chitaldrug	..	192
Mysore	...	4
Hassan	.	88
Total ...	214	670
Net decrease ...	...	456

8. Of the total number of active accounts (15,159), 532 accounts were held by Government Officers, *ex-officio*, with a balance of Rs. 2,53,812 and 799 were security accounts with a balance of Rs. 1,69,321. Minors had in their names 1,179 accounts with Rs. 8,15,187 at their credit, while the remaining 12,649 accounts with the balance of Rs. 57,46,980 were held by depositors on their own behalf.

9. Statements III to VI are subsidiary returns giving information for a number of years under the heads already included in Statement No. II.

10. *Classification of depositors.*—Statement VII furnishes the usual classification of depositors for the year under review by occupation. The percentages of the several classes, as compared with those of the preceding year, are noted below :—

	1905-06	1906-07
Professional	40	37
Domestic	5	4
Commercial	6	7
Agricultural	3	4
Industrial	1	1
Other classes	45	47
Total ...	100	100

11. *Average balances.*—As shown in the accompanying Statement VIII, the average balance at the credit of each account on 30th June 1907 was Rs. 294 against Rs. 405 in the preceding year.

Financial (General Finance), dated 29th January 1908.

12. *Larger deposits.*—An examination of the average balances for deposits having balances in excess of Rs. 5,000 and of less than that amount, separately, shows that, while the average balance in the case of the former was reduced from Rs. 11,730 to Rs. 7,294, it had slightly risen in the case of the latter, the average balance being Rs. 212·6 against Rs. 201·2 in the previous year. The smaller deposits have thus remained unaffected by the revised rules, in this respect. It is too soon however to draw any general inference from these figures as the total amount deposited during the year has begun to show perceptible decline.

I have the honor to be,

Sir,

Your most obedient servant,

T. SATYARAJ CHETTY,
Assistant Comptroller,
(In charge).

Proceedings of the Government of His Highness the Maharaja of Mysore,

No. Fl. 3736-44—Gl. Fin. 213-07-2, dated Bangalore, 29th January 1908.

Order thereon.—Recorded.

2. During the year under report an important change in the Savings Banks Rules was brought into force, by which no depositor can, with effect from 1st October 1906, have at his credit an aggregate balance of more than Rs. 5,000 or deposit more than Rs. 2,000 in a single year. There was consequently a marked decline in the total amount of deposits during the year which is over 12 lakhs less than that of the preceding year.

The following correspondence ending with letter No. 4719, dated 19th June 1907, from the Excise Commissioner in Mysore:—

Letter No. 4574—242, dated 7—11th February 1903, from P. N. Purnaiya, Esq., Excise Commissioner in Mysore, to H. V. Nanjundayya, Esq., Secretary to Government, General and Revenue Departments.

In submitting herewith the record of enquiry relating to the toddy revenue of Hyakanur Kayamgutta village, T.-Narsipur Taluk, I have the honor to state that the investigating officer's opinion that the Inam Settlement has conceded toddy revenue to the Kayamguttadar, is incorrect. The sanuad of the village has not conceded abkari revenue to the Kayamguttadar. The Superintendent of Inam Settlements after finally reading the sannad has ordered on 15th March 1880 "all Government rights to Abkari and Forests are reserved." Accordingly only one-fifth of the rent of the "Grove Farm" is payable to the Kayamguttadar under Rule 4 in Government Proceedings No. 2074-83—R. F. 166-92, dated 2nd August 1901.

Docket No. 706, dated 16th June 1903, to the Excise Commissioner in Mysore.

His letter No. 4574-242, dated 7—11th February 1903, submitting the record of enquiry relating to the Inamdar's claim to the toddy revenue of the Hyakanur Kayamgutta village in the T.-Narsipur Taluk.

In returning the enclosures received with the above has the honor to request that he will be good enough to report as to why the Inamdar was allowed to enjoy the toddy revenue without break notwithstanding the reservation of the revenue to Government at the Inam Settlement.

It should also be reported how far the papers referred to by the Inamdar support his claim. The amount due to the Inamdar for past years under the various systems of toddy administration and the amount already advanced to him, if any, should be ascertained and specified in the calendar accompanying the record.

Letter No. 439, dated Bangalore, 13—15th March 1906, from P.N. Purnaiya, Esq., B.A., *Excise Commissioner in Mysore, to B. K. Venkatavaradiengar, Esq., Secretary to the Government of His Highness the Maharaja of Mysore, General and Revenue Departments.*

Adverting to your docket No. 706—Ex. F. 12-01, dated 16th June 1903, anent the Inamdar's claim to the toddy revenue of the Hyakanur Kayamgutta village, T.-Narsipur Taluk, I have the honor to state that no proper explanation could now be found for the Inamdar having been allowed to enjoy toddy revenue previous to 1892-93. The present system of selling inam shops individually was not in force then and the Inamdars were settling the business with the Government monopolists.

2. The papers referred to by the Inamdar would bring the case under Rule 20 of Government Proceedings No. 2074-83—R. F. 166-92, dated 12th August 1901. I would defer my opinion in the matter till I refer to the Jamabandi Chitta of the village for the years Vishu (1821-22) and Parthiva (1825-26) which may kindly be forwarded for reference.

3. Copies of the Deputy Commissioner's Nos. 231, dated 9th January 1904 and 98, dated 28th February 1906, are submitted with their enclosures.

ENCLOSURE (1).

Docket No. 231, dated 9th January 1904, from B. K. Venkatavaradaiengar, Esq., Deputy Commissioner, Mysore District, to P. N. Purnaiya, Esq., B.A., *Excise Commissioner in Mysore.*

His Office Memo No. 7728—263, dated the 18th June 1903, returning the records of enquiry into the claims of the Inamdar of the Hyakanur village in the T.-Narsipur Taluk to its toddy revenue for furnishing further particulars.

With reference to the above has the honor to state that the documents mentioned by the Inamdar in the list furnished by him show that the Inamdar has long been in enjoyment of the toddy revenue of the village. In the copy of the list of the villages entitled to toddy revenue furnished by the Inam Superintendent the above Hyakanur village is included; and an extract therefrom is herewith forwarded for information. It will, therefore, be seen that the Inamdar is entitled to the toddy revenue of the village.

2. The financial statistics of the village have been called for from the Amildar concerned and a statement in the form prescribed by the Excise Commissioner will be prepared and forwarded as soon as the Amildar's reply is received.

3. The records received with the above are herewith returned.

4. A memo of facts urged by the Inamdar in proof of his claim to the toddy revenue of the village is also herewith transmitted.

ENCLOSURE (2).

Letter No. 98, dated 28th February 1906, from H. H. Sparkes, Esq , Deputy Commissioner, Mysore District, to P. N. Purnaiya, Esq., B.A., *Excise Commissioner in Mysore.*

With reference to your docket No. 6053—220, dated 24th January 1904, anent the toddy revenue due to the Inamdar of Hyakanur, T -Narsipur Taluk, I have the honor to state that the exact amount payable to the Inamdar under the various systems cannot be calculated before the Inamdar's title to Excise revenue is settled by Government. As per Rule 4 of Government Order No 2074-83—R F. 166-92, dated 2nd August 1901, $\frac{4}{5}$ of the grove rent will have to be deducted if the Inamdar is not entitled to Excise revenue and this can only be done after the claim is disallowed by Government. The amount advanced to him has been entered. The records are herewith resubmitted.

Letter No. Fl. 6593, dated 7th April 1906, to the Superintendent of Inam Settlements.

With reference to the Inamdar's claim to the toddy revenue of the Kayamgutta Hyakanur village in the T -Narsipur Taluk of the Mysore District, I am to observe that this village is included in the list of the villages entitled to toddy revenue, furnished from your office to the Deputy Commissioner of the Mysore District in December 1888, while the Inam Settlement conducted in the year 1879-80 has reserved to Government the abkari revenue of the above village and to enquire how the discrepancy can be reconciled. I am also to request the favor of being informed whether the terms of the settlement were not communicated to the Inamdar and the local authorities.

Letter No. 119—E. 1, dated Bangalore, 24th and 25th April 1906, from the Inam Superintendent to the Secretary to the Government of Mysore, General and Revenue Departments.

With reference to your letter No. Fl. 6593—S R. 48-02-4, dated 7th April 1906, I have the honor to state that inasmuch as toddy, as distinct from Abkari, was not reserved, it was regarded as conceded. In the Settlement Register, the term "abkari" meant all other items of Excise revenue except toddy; and the village was, therefore, included in the list sent to the Deputy Commissioner in 1888

2. It was not usual to communicate the parties the terms of the settlement.

3. A copy of the Inam Register of the village in question is enclosed.

Devanhalli, 15th March 1880.

Letter No. 4719, dated 19th June 1907, from P. N. Purnaiya, Esq., B. A., *Excise Commissioner in Mysore, to C. S Balasundaram Iyar, Esq.*, B. A., *Offg. Secretary to the Government of His Highness the Maharaja of Mysore, General and Revenue Departments.*

In continuation of this office No. 439, dated 13th March 1906, regarding the Inamdar's claim to the Excise revenue from toddy of Kayamgutta Hyakanur village in the T.-Narsipur Taluk, I have the honor to state that in the Jamabandi Chitta of the village for the year Vishu 1821-22 the collection on account of " Shendi gutta " is included. The record produced by the Inamdar show uninterrupted enjoyment of the Excise revenue from toddy by the Inamdar from 1831-32 to 1892, that is up to the very date when the farming out of the toddy revenue was undertaken by Government.

2. From a perusal of the Inam Settelment Register of enquiry of the village it will be observed that in column 20 the Inam Superintendent, Colonel Robert Cole, has recorded that " all Government rights to Abkari and Forests are reserved." But in this case " Abkari " does not appear to have been used in the sense of including all items of Excise revenue. The correspondence relating to the right of the Inamdar to the sayer and toddy rights referred to in column 19 has ended in a decision about sayer but nothing has been said about toddy. The Inam Special Assistant is in favor of conceding the toddy right to the Inamdar for the reason that it has been in the enjoyment of the Inamdar from a long time.

3. In these circumstances I beg to submit that the Inam Settlement is not unfavorable to the Inamdar and he has adduced proof of enjoyment for more than fifty years prior to 1892-93. The case, therefore, falls under Rule 20 of the Government Order of the 2nd August 1901 and the village is entitled to the Excise revenue from toddy as recommended by the investigating officer.

4 There is a toddy shop and a date grove in the village and the revenue is payable under Rules 2, 5, 9 and 12 of Government Proceedings No. 2074-83—R. F. 166-92, dated 2nd August 1901. On receipt of Government orders on the claim a refund bill for the amount payable to the Inamdar will be submitted for the sanction of Government.

5 The file of records received with the Deputy Commissioner's docket No. 397, dated 1st May 1907, is herewith submitted for reference.

No. Fl. 3753-5—S. R. 48-02-7, DATED BANGALORE, 30TH JANUARY 1908.

ORDER THEREON.—This is a case in which the holder of the alienated village is not entitled to the toddy revenue of the village either under the sannad or under the Inam Settlement. But it is evident that he has long been in enjoyment of it.

The Inam Assistant's notes dated 11th July 1879 and 7th August 1879 show this. The Mysore Deputy Commissioner's judgment in Revenue Case No. 6 of 1888-89 shows that a series of Government toddy contractors have executed agreements to the Inamdar binding themselves in varying amounts which in the circumstances may fairly be taken to include both tree-rent and Excise, for there has always been a toddy shop in the village as well as date trees. It is thus a case falling under Rule 20 of the rules of 1901. The toddy revenue of the village in question is therefore conceded in full to the present holder and in one moiety to his successor in title.

Letter No. 6371 of the 11th December 1907, from the Revenue Commissioner in Mysore, submitting for information a copy of the notes of inspection of the Co-operative Society at Molakalmuru received from the Registrar of Co-operative Societies in Mysore and stating that the Society has already earned a profit of more than Rs. 560, and is also making very satisfactory progress, th t the co-operation of the Hindu and Mahomedan members and the laudable object of uplifting the depressed weaver population are the specially commendable features of this Society and that he has asked the Registrar to exercise careful supervision over its working and to spare no pains in giving it the benefit of his instructions and guidance in its early days.

NOTES OF INSPECTION OF THE ZAHIRUL ISLAM CO-OPERATIVE SOCIETY AT MOLAKALMURU IN THE CHITALDRUG DISTRICT.

Date and Inspection—This Society was inspected on the 28th and 30th November 1907.

2. *Registration.*—It was started on the 28th April 1906, by a few Mahomedans of Molakalmuru who were enthusiastic about improving the condition of the local weavers, through the persuation of Mr. Zahiruddin Meccai, Superintendent of Police.

3. *Object and present work.*—The Society has at present chiefly confined itself to purchasing wholesale the silk and cotton yarns required by the weaver members of the Society. In the case of two of the members, Latchappa and Nagappa, both Hindu weavers, the Society has been advancing some money also as a loan. These members were indebted heavily to the sowkars at Rayadurg. The Society admitted them as members and encouraged them to continue their work, by advancing funds to them to a small extent and also giving them raw materials for manufacture. The manufactured goods are bought in for the Society at the market rates. Out of the total value of the goods thus purchased the Society first deducts half their value towards their debts and advances funds to the remaining extent. Their houses worth about Rs. 350 have been mortgaged to the Society for the debts.

4. *Members.*—There are 75 members on the roll, 43 being Mahomedans, 30 Hindu weavers, 1 Brahmin and 1 sweet-meat seller. The 43 Mahomedans may be arranged as follows:—

Pure weavers	...	...	...	30
Weaving and Govt. Service	...	...	...	2
Pandit	...	...	...	1
Butcher	...	...	...	1
Govt. Peons	...	...	...	4
Merchant	...	...	...	1
Carpenter	...	...	...	1
School Masters	...	...	...	1
Cooly	...	...	...	1
Cultivator	...	...	...	1
		Total	...	45

The 30 Hindu weavers, who mostly joined in the month of October last, have taken up 132 shares and have paid up to the end of November Rs. 96-8-0, none having as yet paid in full for their shares.

It was found that 22 members had joined prior to March 1907, and that subsequently the admissions were as follows:—

In May	...	...	...	1
„ June	...	...	...	6
„ October	...	...	...	44
„ November	...	...	...	2
		Total	...	53

5. *Capital.*—The capital of the Society is divided into 1,000 shares of Rs. 10 each. The present number of members have taken up 574 shares, of which 301 have been fully paid up. The total capital collected up to 30th November 1907 is Rs. 3,657-0-7, of which the entrance fees amount to Rs. 26-8-0. There is some irregularisy on the part of the members in punctually paying their instalments, but the rule relating to penalties for defaults of payment is not enforced just at present.

Financial (Banking), dated 7th January 1908.

6. *Management.*—The working of the Society is managed by nine Directors, of whom seven are Mahomedan weavers and one a Hindu weaver and one is a School Master.

The Revenue Sub-Division Officer and the Amildar of the Taluk are the Hon. President and the Hon. Vice-President of the Society, respectively, permission for being so having been accorded by the Revenue Commissioner.

7. *Accounts and Registers.*—The following registers were examined:—

Register of Members.—In this register the thumb or other marks of 22 illiterate members have not yet been taken. Their register numbers are noted in the margin. The agent has promised to obtain the signatures at the earliest opportunity.

1, 10, 15, 16, 19, 30, 31, 33, 34, 35, 39, 40, 49, 50, 53, 54, 58, 67, 69, 62, 70, and 72

Registers of applications for membership.—All the applications received are numbered and filed in a register. The first in order bears the number 23 and the last ends with number 75. The first 22 numbers seem to have been admitted without any formal applications, but all of them have paid a portion of their share amount, if not the whole.

Day Book.—This is the only record of all the transactions relating to the Society. Receipts and expenses of the Anjuman Society have also been included in the accounts of the Co-operative Society. The Secretary has been asked to enter these as deposits received and deposits withdrawn in the accounts of the Society. The cash on hand with the Treasurer on the 30th November was Rs. 118-15-10.

8. *Meetings.*—After the Society was started two meetings have been held, one prior to the date of the registration of the Society and the other on the 10th November 1907.

Some of the accounts are written in Hindustani and some in Kanarese. This does not facilitate the checking of the accounts easily. From the 1st of January 1908 the Secretary has been directed to keep all the accounts in the form prescribed by the Registrar.

9. Taking the transactions of the Society from 1st March 1907 to 30th November 1907 the following is roughly the balance sheet for the period:—

Liabilities			Amount		Assets.		Amount	
			Rs. a. p				Rs. a. p.	
To Share capital			3,630 8 7		Due from members for yarns purchased from the Society		4,476 6 11	
Entrance fees			26 8 0		Cash on hand		118 15 10	
Due for yarn purchased for the Society ...			683 3 10		Cost of yarn, etc., on hand		306 6 6	
Mastan Sahib, Channapatna ..	482	1 5						
Mohadin Sab .	201	2 5						
	683	3 10			Total ...		4,901 13 3	
By profits			561 8 10					
Total ..			4,901 13 3					

10. The Society gets the silk yarn from Haider Sab and Mastan Sab at Channapatna and money is send to them at convenient intervals when the Society has funds. It gets the cotton yarn of 20's and 30's which are the kinds consumed chiefly by the local weavers from Murarjee Gokuldas and Lakshmi Cotton Company at Sholapur, money being paid in advance.

Within 10 days of the receipt of a consignment of yarn, the whole is distributed among the members. The time given for the members to pay the cost of silk yarn is from four to six months, and that of cotton one month. The Society has not yet framed any rule for cases of default, there being no instances of the kind hitherto.

Before the registration of the Society, on 1st March 1907, the members divided certain profits among themselves, about 1 per cent on the fully paid up shares.

From the 1st March 1907 up to the 30th November 1907 the Society has purchased and sold 31 maunds 4¾ seers of silk yarn costing Rs. 5,112-7-4 and 7 bales of 20's and 30's cotton threads costing Rs. 1,498-9-6. The weavers of the place both Hindus and Mahomedans who are working in unison, appear to be largely appreciating the advantages of the Society in their midst. From the 1st March 1907 up to the end of November 1907 there has been a profit of about Rs. 561 to the Society. This augurs a bright future for the Society. Much credit is due to the Managing Directors and the Secretary for the efficient way in which they are managing the Society.

ORDER THEREON.—Recorded.

1. Government Order No. Fl. 4218-21—B. 33-04-11, dated 6th January 1905, directing the winding up of the Coffee Banks at Saklespur and Chikmagalur and issuing certain instructions for individually dealing with the estates concerned.

2. Government Order No. Fl. 168-71—Legis. 34-04-1, dated 8th July 1905, authorising the Deputy Commissioners to grant advances for working expenses to owners of coffee estates, who, having been members of the Coffee Banks of Saklespur or Chikmagalur, are allowed by Government to repay their share of the debt by instalments.

3. Letter No. 2038, dated 1st August 1907, from the Revenue Commissioner in Mysore, submitting the report of the Deputy Commissioner, Hassan District, on the working of the estates hypothecated to the late Agricultural Bank at Saklespur during the year 1906-07.

No. Fl. 3526-8—B. 3-07-16, DATED BANGALORE, 16TH JANUARY 1908.

ORDER THEREON.—The Agricultural Banks at Saklespur and Chikmagalur were ordered to be wound up in January 1905; but, seeing that the adoption of coercive measures for immediate recovery of the loans would be disastrous to some of the solvent members, individual liability was substituted for the joint liability that existed before and certain instructions were issued for dealing with each estate and for granting advances for working expenses in exceptional cases with proper safe guards. The object with which the grant of advances for working expenses was sanctioned by Government in November 1902 and continued after the Banks were wound up, was to prevent the deterioration of the estates as their owners, being greatly involved in difficulties, were unable to raise loans on the security of standing crops for the annual up-keep. But it is observed from the reports of the Deputy Commissioners and the Inspector of Coffee Estates that this object of Government has not been secured and that many of the estates have gradually deteriorated. Further great difficulties have been felt in fixing the amount required for working expenses of each estate and in seeing that the amount advanced was properly utilized and was recovered in due course. On a careful consideration of these facts, the Government of His Highness the Maharaja of Mysore are pleased to direct that notice be given to all concerned:—

(1) That no more advances will be granted for working expenses from the close of the current year 1907-08.

(2) That where the advances granted for the up-keep of the Coffee Estates or the instalments of principal and interest due according to the agreements executed by the members have been allowed to fall into arrears or when the Government are satisfied or have reason to believe that any estate has not been preserved from deterioration and that the realisation of the arrears will be thereby endangered, the Government will at their discretion recover the whole amount due to them as a land revenue demand.

No. Fl. 3529-33—B. 3-07-17, dated Bangalore, 16th January 1908.

Order.—With reference to Government Order No. Fl. 3526-8—B. 3-07-15, dated 16th January 1908, declining to sanction any more advances for the up-keep of the estates of the indebted members of the late Agricultural Bank at Saklespur and Chikmagalur, and directing in certain cases the realisation of the arrears due to Government under the provisions of the Land Revenue Code, the Government wish to indicate that their object is to close the transactions relating to these Agricultural Banks as early as possible without causing any avoidable loss to the Government or the owners of the coffee estates, concerned. It is their policy not to dislocate the market for coffee estates by bringing too many estates to public sale without taking care to see whether there was a demand for the same. With these considerations in view fair, they are pleased to lay down the following instructions for the guidance of the Deputy Commissioners and the Inspector of Coffee Estates:—

(1.) These officers should be on the look out to find out possible purchasers of the coffee estates and other property of the debtors who have allowed their instalments or advances to fall into arrears, on terms which may be regarded as fair.

(2.) In cases where it may be considered inexpedient to proceed to recover the loan as a revenue demand and sell the land by public auction under clause 2 of the Government Order referred to above, the Deputy Commissioner will, in consultation with the Inspector of Coffee Estates, ascertain by private negotiation the highest *bona-fide* offer forthcoming and with the sanction of Government accept the offer conditionally, fixing a time for final reply, and ask the owner whether he is prepared to compound with Government for the full and final adjustment of the debt due by him on terms not less favourable than the offer. If the owner is unable to comply with this proposal, the Deputy Commissioner will arrange to sell the estate by public auction with the offer as the upset price, and if a higher bid be not received, the estate will be knocked down to that offer. It is to be distinctly understood that the terms of the offer and the name of the individual making it, will be kept strictly confidential until it is finally accepted with the sanction of Government.

(3.) On the report of the Inspector of Coffee Estates that any estate is being allowed to deteriorate, the Deputy Commissioner will inspect the same with the Inspector and decide the course of action to be adopted, both of them acting together in giving effect to the instructions contained in para 2 above and in the Government Order referred to above.

(4.) The Deputy Commissioner will, with the approval of Government, be competent to allow the owner to transfer the mortgaged estate or other property to other persons on terms similar to those now enjoyed by the owner at a price which under the circumstances may be considered fair and reasonable, provided that the transferee is solvent and of a satisfactory character.

(1) Chief Commissioner's Notification No. 111, dated the 23rd July 1878:—

"Under the authority of His Excellency the Viceroy and Governor-General in Council the Chief Commissioner directs that all criminal processes of whatsoever description when issued by any Magistrate having jurisdiction in any District of British India shall be acted upon and executed by all Magistrates and Police officers in Mysore under the same condition and in the same manner as if such processes had been issued by a Magistrate having jurisdiction in Mysore."

(2) Government Notification No. J. 219—Legis. 14-04-14, dated the 20th July 1907:—

"His Highness the Maharaja of Mysore is pleased to direct that, if a requisition for the production and delivery at a place and to a person or authority indicated in the requisition of a person confined in a prison in Mysore under sentence of a Criminal Court in Mysore for an extradition offence, and charged with the commission of an extradition offence in British India, be addressed by a Magistrate or Court of competent jurisdiction in British India to the officer in charge of the prison in Mysore where such person is confined, such officer shall act upon and comply with the same by causing such person to be conveyed to the place and delivered to the person or authority so indicated.

Provided as follows:—

(1) Every such requisition is forwarded through the Hon'ble the Resident in Mysore.

(2) No such requisition shall be acted upon if the person to whom it relates is under sentence of death.

Explanation.—In this order,' extradition offence' means any such offence as is described in the 1st Schedule to the Indian Extradition Act, 1903 (Act XV of 1903 of the Governor-General in Council).

2. His Highness is further pleased to direct that on the delivery as aforesaid of a person confined in a prison and undergoing sentence under a conviction in Mysore, his sentence shall be deemed to be suspended until the date of his re-surrender from British India to Mysore when it shall revive and shall have effect for the portion thereof which remained unexpired at the time of his delivery.

3. The provisions of this notification may, by a special order of the Government, be applied to the case of any person confined in a prison in Mysore under sentence of a Criminal Court in Mysore for any offence, who may be subsequently charged with committing an exradition offence in British India.

Explanation.—The word 'offence' where it first occurs in this para, does not include an act which, if committed in British India, would not be an offence."

No. J. 2013-23—LEGIS. 141-04-15, DATED BANGALORE, 6TH JANUARY 1908.

ORDER THEREON.—Government are pleased to lay down the following instructions for the guidance of Magistrates and officers in charge of prisons in the State with regard to warrants and requisitions issued by Magistrates in British India in accordance with the Notifications read above.—

(1) Where a person is confined in a prison in Mysore under sentence of a Criminal Court in Mysore for an *extradition offence* and is charged with the commission of an *extradition offence* in British India, a requisition to the officer in charge of the prison where such person is confined, shall be acted upon and complied with in the manner provided in para 1 of the Notification of the 20th July 1907 read above.

(2) Where a person is confined in a prison in Mysore for a *non-extradition offence* (*i. e.*, an offence not specified in the Schedule to the Indian Extradition Act of 1903) and is charged with an *extradition offence* in British India, a requisition by a Magistrate or Court of competent jurisdiction in British India, to the officer in charge of the prison where such person is confined, shall not be complied with except on a special order of the Government. On receipt of any such requisition, the officer in charge of the jail should immediately report the case to Government for instructions.

(3) In either of the above cases, no person confined in Mysore under a sentence of death shall be surrendered.

(4) Whenever a person confined in a prison in Mysore is surrendered before the expiry of his term of imprisonment, the officer in charge of the prison shall, simultaneously with the surrender of the prisoner, submit an application for the issue of a warrant under Section 7 or a requisition under Section 9 of the Indian Extradition Act, for the resurrender of the convict to undergo the unexpired portion of his sentence.

(5) Where a person is confined in Mysore under sentence for an offence constituted by an act which, if committed in British India, would not be an offence, or under any of the provisions of the Criminal Procedure Code, or is charged with the commission of a non-extradition offence in British India, he shall not be surrendered till the expiry of his term of imprisonment.

(6) If on the receipt of a process issued by a British Court under the authority of the Chief Commissioner's Notification of 23rd July 1878, a Magistrate in Mysore, or an officer in charge of a jail, finds that the accused person is undergoing sentence of imprisonment in the State for a non-extradition offence, he shall immediately communicate the fact to the British Court concerned together with information as to the date when the accused will be released in the ordinary course.

(7) Where the immediate surrender of the prisoner is not directed by Government as indicated in para 2 of this Order, the Magistrate in Mysore, within whose jurisdiction the prisoner is undergoing sentence, shall execute the warrant in accordance with the Chief Commissioner's Notification of 23rd July 1878, as soon as the prisoner is discharged.

The offences specified in the 1st Schedule to the Indian Extradition Act, XV of 1903, are reprinted in the Appendix for convenience of reference.

The following letters from the Deputy Commissioners of Districts, reporting on the working of the Merchandise Marks Regulation and the rules framed thereunder during 1906-07 :—

1. Letter No. 116, dated the 30th August 1907, from the Deputy Commissioner, Kadur, submitting a report on the action taken in the Kadur District, under rule XIV of the rules framed under the Regulation, and stating that there were no premises in the district during the year under report, which could be brought under Section 10 of the Regulation.

2. Letter No. 154, dated the 13th September 1907, from the District Magistrate, Mysore, stating that no infringement of the Regulation or rules was reported during the year in regard to the articles imported into the district and that there were no weaving or spinning factories in the district coming under the operation of Section 10 of the Regulation.

3. Letter No. 1562-95, dated the 18th September 1907, from the District Magistrate, Kolar, stating that no cases or complaints were reported during the year either under the Regulation or the rules, and that piece-goods were examined as usual at all Taluk Headquarters in connection with the levy of octroi thereon.

4. Letter No. 150, dated the 19th September 1907, from the Deputy Commissioner, Chitaldrug, stating that, for reasons stated, no action could be taken in the district during the year either under the Regulation or the rules and that the Assistant Commissioners and Amildars, who have recently been invested with the necessary power, have been instructed to take active interest in the matter during the current official year.

5. Letter No. 212, dated the 2nd October 1907, from the District Magistrate, Tumkur, stating that as there were no factories in the district during the year as defined in the Factories Regulation for manufacturing piece-goods and yarns on a large scale, no infringement of the Regulation or Rules was reported.

6. Letter No. 229—127, dated the 18th November 1907, from the Deputy Commissioner, Shimoga, forwarding a statement showing the result of inspection of shops in the district conducted during the year under the rules.

7. Letter No. 224-S., dated the 22nd November 1907, from the District Magistrate, Hassan, stating that Mr. S. Narayana Rao, Assistant Superintendent of Police, continued to be the special officer for the purpose of rule 14 of the rules under the Regulation; that he inspected twenty-one shops in different places and examined fifty-one pieces of foreign goods of different kinds, which were found to tally with the trade description and that he also reported that he never came across any piece-goods manufactured in factories in other parts of the State.

8. Letter No. S. 246, dated the 27th November 1907, from the District Magistrate, Bangalore, stating that a fair percentage of goods coming under the operation of the Regulation was examined during the year both in the City of Bangalore and in the mofussil taluks; that the description of goods given by the several manufacturing proprietors was found, in all instances, to tally with the actual measurements; that piece-goods manufactured in the Bangalore City Mills were examined by the City Magistrate, and that no offences were reported either under the Regulation or rules framed thereunder.

No. J. 2246-53—LEGIS. 19-07-9, DATED BANGALORE, 24TH JANUARY 1908.

ORDER THEREON.—Recorded.

2. None of the reports except that of the Deputy Commissioner, Kadur, was received on the prescribed date. In the Chitaldrug District no examination of the goods was made as directed by rule XIV of the rules. The reports of the Deputy Commissioners of Tumkur and Mysore are meagre and do not furnish any details of the examination made. The Deputy Commissioner of Tumkur states that there being no factories in that district, no infringements of the rules were reported, but it is to be observed that the rules contemplate the examination of goods both imported into and manufactured in the State; and it does not appear whether piece-goods offered for sale in shops were examined in any instance.

No. J. 2008-17—Pris. 8-14, DATED BANGALORE, 22ND JANUARY 1906.

ORDER THEREON.—The reports received from the District Magistrates of Kolar, Mysore, Hassan and Chitaldrug show that in the mofussil districts, the Magistrates do, as a rule, place persons, deemed to be lunatics and brought before them under the observation of local medical officers and take their evidence as required under Rule 5 of the rules for the reception and detention of lunatics in the Asylums in Mysore. The reports of the District Magistrates of Kolar and Hassan further show that mofussil medical officers under whose observation such persons are placed, are required by departmental rules to furnish Magistrates with reports in Form C. The mofussil practice in this State is thus the same as the Madras practice referred to by the Senior Surgeon. The Magistrates may be required to send to the Lunatic Asylum, if they do not already do so, the medical officer's certificate in Form C in addition to Forms I and II prescribed by the rules. It is only in the case of persons dealt with by Magistrates in Bangalore that recourse is not had to previous medical observation, as under Rule 3 of the above rules, the Magistrates at Bangalore can send persons direct to the Lunatic Asylum after the necessary enquiry. The District Magistrate of Bangalore, who is also one of the official visitors of the Lunatic Asylums, says that no instance of imperfect enquiry or injury suffered by anybody as a consequence, ever came to his notice.

In these circumstances, the Senior Surgeon is requested to state—

(i) whether in the case of persons dealt with by mofussil Magistrates, it is not sufficient to direct the Magistrates to transmit the Medical Officer's report in Departmental Form C to the Lunatic Asylum in addition to Forms I and II;

(ii) whether in the case of persons dealt with by Magistrates, at Bangalore, it is necessary to provide for their observation elsewhere than in the Asylum and by a medical officer other than the one in charge of the Asylum a course not contemplated in the rules; and if this is not considered necessary and if it is only desired that the Magistrates should elicit material particulars as in the new Form C and communicate the same to the officer of the Asylum, what the details are which are required to be furnished under the heads "12. Habits and Disposition" and "14. Natural affection perverted or not" some practical examples of such details being also given.

3. Letter No. G. 780, dated the 20th April 1906, from the Senior Surgeon and Sanitary Commissioner, furnishing a reply to the above, and suggesting the procedure which Magistrates should adopt in sending lunatics to the Lunatic Asylums.

4. Letter No. 8002-407, dated the 30th May 1906, from the Registrar of the Chief Court, furnishing the opinion of the Chief Court on the above suggestion.

(viii)	,,	No. 725, dated 11th April 1907	do	Mysore.

No. J. 2130-39—Pris. 8-05-28, dated Bangalore, 16th January 1908.

Order thereon.—A Magistrate taking action in respect of any supposed lunatic under the "Rules relating to the reception and detention of lunatics in asylums in the State," before sending such supposed lunatic to an asylum, is required by Rules 3 and 4 of the said Rules to satisfy himself, after making such enquiry as may be necessary, that he is a fit person to be detained in an asylum, and if the Magistrate's Court is situated in the mofussil, he has, under Rule 5 of the said Rules, to keep the supposed lunatic under the observation of a medical officer, and to take some medical evidence to show that the person is a lunatic, before sending him to the asylum. In order to ensure a thorough enquiry by the Magistrate, the Senior Surgeon now proposes that a Magistrate in the mofussil sending a supposed lunatic to the medical officer for observation should also forward a statement of such of the particulars mentioned in the Medical Departmental Form C (with certain modifications) as he may be able to elicit, and that in cases where he is unable to supply at once all or any of the particulars required by the Form, he should forward the same subsequently, if he should be able to obtain the same. The Senior Surgeon further suggests that the procedure to be observed by Magistrates in the City of Bangalore in sending supposed lunatics to the asylum for observation, must be the same as that adopted in the mofussil and that, in the case of private patients, a further Form B and an indemnity bond for securing payment for maintenance signed by the relative or friend who desires the patient to be treated, are necessary. He also recommends that another column No. 16 should be added to Form No. II appended to the Chief Commissioner's Notification dated the 31st July 1874, with the heading "Number and kind of property on the person, and the address of the relatives, if any;" and that the heading of column 15 of the form be changed into "at whose cost the patient is to be maintained, while in the asylum; and if, at private cost, to whom the bill for maintenance should be sent;" and that the Magistrates should be asked to fill in these columns along with the first ten columns.

2. The proposal of the Senior Surgeon requiring Magistrates to fill in Form C as modified by him is concurred in by the majority of the District Magistrates and the Judges of the Chief Court; Government consider that this course while entailing a careful enquiry on the part of Magistrates will also be of advantage to the medical officer as it will enable him to obtain information which he may not otherwise be able to get. Government accordingly direct that Form C be modified as proposed and the procedure, as laid down in para 3 *infra* be observed by all Magistrates including those in the Bangalore City when sending lunatics to the asylum. The other proposals of the Senior Surgeon are also approved.

Judicial (Prisons), dated 16th January 1908.

3. The following further rules will accordingly be prescribed for the guidance of Magistrates in the matter of reception and detention of lunatics in asylums in the State:—

(1) Whenever a Magistrate directs observation by a medical officer or officer in charge of a Lunatic Asylum, of a person who is alleged to be a lunatic, he shall forward to such officer a statement of such of the particulars mentioned in the accompanying Form C as he may have elicited in the course of enquiry, and if he is unable to supply at once all or any of the information required by the said form, he shall forward the same subsequently, should he be able to collect them after due enquiry.

(2) If the medical officer or officer in charge of the Lunatic Asylum, before whom the patient is sent for observation, finds him insane, he should fill in such of the columns of Form C as are left unfilled and which may be filled in without much difficulty and then return the same to the Magistrate along with the accompanying medical certificate Form A.

(3). If, on receipt of the medical certificate, Form A, and the medical sheet, Form C, the Magistrate is satisfied that the person is a lunatic, and sends him to an asylum, he shall at the same time forward to the asylum, the medical certificate and the medical sheet referred to above, together with an order in Form I as appended to Notification No. 141 of the 23rd July 1874, and a statement in Form II as at present modified with columns 15 and 16 also filled in.

4. In the case of private patients, besides the forms already prescribed, a statement in accompanying Form B and an indemnity bond for securing payment for the patient's maintenance, should be obtained by the Magistrate from the relative or friend of the patient who desires him to be treated in the asylum and forward along with the patient.

Letter No. 135, dated the 16th August 1907, from the Comptroller in Mysore, submitting two statements showing the approximate income and expenditure under the several main heads of the Local Funds General for 1906-07 and also the estimated receipts and expenditure of the same funds for 1907-08.

2. Letter No. 2544, dated the 15th August 1907, from the Revenue Commissioner in Mysore, stating the probable amounts required in the course of the current year for expenditure under certain heads falling under the Local Funds General and requesting that necessary provision be made therefor in the budget.

No. 6715-35—L.B. 255-07-4, DATED BANGALORE, 16TH JANUARY 1908.

ORDER THEREON.—It is observed that owing to the absence of a separate Budget of receipts and expenditure for the Local Funds General and to the issue in more than one Department of the State, of orders sanctioning grants therefrom, much inconvenience is felt in ascertaining from time to time the financial condition of the said funds. In view to remedy this defect by the issue of regular budgets from 1907-08, the Revenue Commissioner was requested to state the amounts to be provided for in the budget. The figures furnished by this Officer and by the Comptroller as called for from him in another connection are as shown below:—

No.	Items	Receipts		Items	Expenditure		Remarks

	Grand Total ...	2,20,126	2,34,055	Grand Total ...	2,20,126	2,34,055	

2. *Receipts.—Sixty-seven per cent of one anna cess.*—The decrease under this head is partly due to the abolition of Halat on supari and cess thereon, etc.

3. *Industrial School Receipts.*—The estimate proposed by the Comptroller, namely, Rs. 12,300, falls short of the approximate actuals of 1906-07 by Rs. 3,650, while that adopted in the Industrial School Budget exceeds this sum by Rs. 29,780. Though this figure (Rs. 42,050) is in the opinion of the Comptroller oversanguine, it will be retained pending receipt of the statement already called for from the Inspector-General of Education.

4. *Expenditure. A. Public Works.*—The amount sanctioned for expenditure on works to be executed by the Public Works Department being only Rs. 70,000, the same will be provided for in the present Budget.

Proceedings No. 2454-5—L. B. (95-07)-1, dated 13th September 1907.

5. *B. Public Works.*—In addition to the grant of Rs. 2,000, sanctioned for a well at Hassan, which has to be renewed this year, grants amounting to Rs. 5,990, have already been made for the works noted in the margin. As about Rs. 6,000, more may be needed to meet expenditure, which may hereafter be sanctioned for works to be executed in the several districts against an average expenditure of Rs. 27,600, in previous years, the provision under this head will be raised from Rs. 2,000 to Rs. 13,990.

No. 6843-56—L. B. 67-07-21, DATED BANGALORE, 17TH JANUARY 1908.

ORDER THEREON.—*Constitution of the Boards.*—Besides the Kolar Gold Fields Sanitary Board to which the rules under the Mines Regulation are applicable, there were during the year under review eight District Boards, 77 Taluk Boards and 47 Union Panchayats constituted under the Local Boards Regulation, II of 1902.

2. *Sanitary Board, Kolar Gold Fields.*—This Board had on the last day of the year 12 members, of whom six were *ex-officio* and the rest nominated by the Government. Of these nine were Europeans and Eurasians and three Indians. Six ordinary, one special and one extraordinary or in all eight meetings were held, the average attendance at each meeting being 4·7 officials and 3·6 non-officials or 8·3 in all.

3. *District Boards.*—These Boards had in all on their rolls, on the last day of the year, 201 members, of whom 60 were *ex-officio*, 101 nominated by Government and 40 elected by the Taluk Boards. Of these seven were Europeans and Eurasians and 194 Indians. Every Taluk Board in the Kadur, Chitaldrug and Kolar Districts was represented by an elected member at the District Board but this privilege was not exercised in the Bangalore, Hassan and Shimoga Districts. The attention of the Presidents of these Boards will be drawn to this defect for correction in the course of filling up vacancies and reconstituting the Boards. The Boards of Kolar, Mysore and Shimoga met just the prescribed minimum number of times, *viz.*, four, while each of the others met once more. The average attendance at each meeting was six officials and 12·5 non-officials and was satisfactory in all the districts except Kadur where it was 8·6 for the prescribed strength of 25 members. The Finance Committees contemplated by Section 22 of the Local Boards Regulation are reported to have done good work in the Kolar, Tumkur, Hassan and Kadur Districts. In Mysore it is reported that the reconstitution of the Committee was not effected as promised in the report for 1905-06. The President of the Chitaldrug District Board again suggests the framing of rules for compelling the attendance of members of these Committees. This is not satisfactory, and Government trust that the Boards concerned will take steps to ensure the proper working of the regulations and not ask for the intervention of Government at every step either in the way of passing regulations or issuing executive orders for carrying out the provisions of the Regulations.

4. *Taluk Boards.*—The total number of members on these Boards on the last day of the year was 1,118 against 1,105 in the previous year. Of these, 367 were *ex-officio*, 400 nominated by Government and the remaining 351 elected members. Classified according to race, 11 were Europeans and Eurasians and 1,107 Indians.

against 9 and 1,096 respectively in the previous year. Sixty-seven of the Boards met not less than the prescribed number of times, *viz.*, 6, while *6 of the remaining met only five times, those of Closepet, T.-Narsipur and Channagiri held only four meetings and that of Chintamani only three This is far from satisfactory; and Government hope that better attendance and co-operation will be secured in future years. The average attendance at each meeting which was three officials and 4·9 non-officials against 2·9 and 5 respectively in the previous year was, however, satisfactory.

*1. Hodballapur.
2. Kolar
3. Gundlupet.
4. Seringapatam.
5. Chikmagalur.
6. Jagalur.

5. *Unions.*—The Union at Saligram in the Yedatore Taluk of the Mysore District having been constituted into a non-regulation Municipality with effect from the 1st July 1906, the number of Unions decreased from 48 in the previous year to 47 in the year under review. The members of these Unions on the last day of the year numbered in all 372 against 375 in the previous year. Of these 83 were *ex-officio* and 289 nominated by Government. The average attendance at each meeting was 1·5 officials and 3·9 non-officials against 1·6 and 4·3 respectively in the previous year. Twenty-seven of these Unions met the prescribed number of times while out of the remaining 20, those at Sosale, Tayalur, Agara and Nangli met 5, 4, 2 and 2 times respectively.

6. *Financial position.*—The year opened with a balance of Rs. 3,41,866 and the income and expenditure as detailed in the appended statement, amounted to Rs. 7,20,945 and Rs. 7,25,105 respectively, the balance at the close of the year being Rs. 3,37,706. The expenditure exceeded the receipts in the Bangalore, Tumkur, Chitaldrug, Kadur, Mysore and Hassan Districts and the closing balance was less than the prescribed minimum in the Kadur and Hassan Districts as in the previous year.

The incidence of revenue per head of rural population was Re. 0-2-4, of which Re. 0-1-8 was from local cess, Re. 0-0-2 from house tax and the rest from other sources. The expenditure per head of rural population was Re. 0-2-4, of which Re. 0-1-9 was spent on Public Works, Re. 0-0-3 on Medical relief, Re. 0-0-1 on conservancy and sanitary improvements and the rest on miscellaneous items.

7. *Local cess.*—The principal source of income was the 76 per cent of local cess on land revenue, which showed an increase of Rs. 15,983 chiefly owing to the better collections in Tumkur and Shimoga, to the absence, unlike in the previous year of remissions in Kolar and also to the introduction of revision settlement into the Challakere and part of the Hosdurga Taluks in the Chitaldrug District.

8. *House-tax.*—The income from this source was Rs. 42,810 or Rs. 4,388 more than in the previous year. There was a general increase in all the districts except Hassan, Chitaldrug and Mysore. The conversion of Saligram into a Municipality accounts for the decrease in the Mysore District, while in Hassan the falling off is due to the existence of outstanding arrears in Harnahalli and Grama Unions.

No coercive measures were taken for the collection of this tax except in a few cases in the Chitaldrug District, but in the Kolar Gold Fields, 286 distress warrants had to be issued and property sold in 28 cases.

9. *Tolls.*—The receipts from tolls were better than those in the previous year by Rs. 5,972 owing mainly to the levy of tolls from 1st May 1906 on the Arsikere Hassan road and to increased realizations in the Mysore District.

10. *Rents and fees from markets, etc.*—The income under this head amounted to Rs. 40,366 against Rs. 33,329 in the previous year, the increase being due to the efficient supervision by the market establishment on the Kolar Gold Fields, to the addition of more platforms and shops at the Terkanambi Sante in the Gundlupet Taluk and also to the keen competition for the collection of fees at Santemaranahalli Sante in the Chamrajnagar Taluk.

11. *Public Works.*—The outlay on works executed during the year is shown in detail in the appended Statement No. III. The total length of roads repaired by the Public Works Department was 3,509 miles, the average cost per mile being

Rs. 75 approximately. The more important of the original works executed during the year were the following:—

Work	Estimate	Outlay during 1906-07	Outlay upto end of 1906-07
	Rs.	Rs.	Rs.
1. Opening out a road from Davangere to Sulekere	17,740	4,989	14,568
2. Opening Sorab-Anavatti road	22,635	3,037	6,063
3. Metalling T.-Narsipur-Chamrajnagar road ...	15,554	4,755	11,630
4. Construction of third class travellers' bungalow at Kallurkatte	5,350	2,552	4,199
5. Improving the Devikere tank on the Chamundi Hills	4,192	2,001	4,625
6. Extending musafirkhana at Tiptur	2,516	2,050	2,050

It is, however, observed that the expenditure of Rs. 1,887-3-5 incurred on the construction of the well in the south-west part of the Kolar town sanctioned in Government Order No. 7828-9—Mi. 314-06-4, dated 7th March 1907, should have been properly debited to the Municipal Funds of Kolar to which the contribution of Rs. 2,703 sanctioned therefor from the Local Funds General has been credited in the accounts. The President's attention is drawn to this irregularity and the Comptroller is requested to transfer the debit to the proper head in his final accounts. The lapses under A. Public Works were not considerable but those under 'B. Public Works' were large varying from about 25 per cent in Kadur to 71 per cent in Bangalore. This unsatisfactory state of things is in many cases attributed to the apathy of Amildars. This is highly unsatisfactory. The explanation of the Amildars of taluks on which the lapses exceeded 30 per cent should be obtained and submitted separately with the opinion of the Presidents concerned.

12. *Medical relief.*—The number of Local Fund Dispensaries supported in part from the District Funds rose from 107 and 109, the increase being due to the opening of new dispensaries at Ananthapur in the Shimoga District and in the Weavers' Lines in the Mysore City. The number of patients treated was 839,991 against 812,513 in the previous year and that of labour cases attended to by midwives paid in whole or in part by the District Funds was 5,274 against 5,126 in the previous year. The expenditure incurred on their account amounted to Rs. 68,219 against Rs. 73,761 in the previous year.

To the 12 Hindu and Unani Dispensaries which existed during the previous year, four more were added, namely, one at Vadigenahalli in the Devanhalli Taluk, one at Kutgal in the Closepet Sub-Taluk, one at Agumbi in the Tirthahalli Taluk and one at Basavapatna in the Channagiri Taluk. The Vaidyasala at Hura in the Nanjangud Taluk did not work from May 1906, as the services of a pandit were not secured. The other institutions are reported to have done good and useful work. The number of patients treated in these Vaidyasalas and Dispensaries and the cost incurred therefor amounted to Rs. 1,41,157 and Rs. 4,675 against Rs. 1,21,888 and Rs. 3,555 respectively in the previous year.

13. *Vaccination.*—The number of persons vaccinated rose from 85,675 to 105,982, the increase being chiefly due to the vigorous measures adopted in the Shimoga District and the Kolar Gold Fields on account of the prevalence of small-pox in an epidemic form. In addition to the usual staff maintained from State Funds, the Kolar Gold Fields Sanitary Board employed two temporary vaccinators. In addition 13,642 persons are reported to have been vaccinated by the medical staff employed by the Mining authorities. It is hoped that when the new Department

of Public Health is in full working order, the vaccination work will be placed on a more satisfactory basis so as to minimize mortality from small-pox. The number of patients treated in the Local Fund Dispensaries and the number vaccinated during the year 1905-06, as given in the present reports, differ from those furnished in the reports of the previous year (1905-06) as shown hereunder:—

Details	Figures furnished in the report for	
	1905-06	1906-07
Local Fund Dispensary at Honnali—Number of patients treated ...	7,262	7,433
" Nagar "	3,786	3,559
" Tarikere " . ..	4,839	10,689

" Arkalgud " . ..	9,823	9,828
" Konanur "	4,684	4,692
Female Dispensary at Hassan	7,193	7,516
Kadur District number of persons vaccinated	6,121	6,895
Kolar dispensary	10,962	8,159

The Senior Surgeon and Sanitary Commissioner is requested to see that such discrepancies are not allowed to occur in the statements furnished to the Presidents of the District Boards and that the statistics given in appendices IX and X relating to the District Fund reports are confined to those relating to Dispensaries and midwives subsidized in part or whole from the District Funds.

14. *Accommodation for travellers.*—One hundred and thirty five travellers' bungalows, 186 musafirkhanas and 21 other buildings were maintained from District Funds for the convenience of the travelling public. The fees collected for the use of these buildings amounted to Rs. 2,414, the cost of maintenance being Rs. 23,753. The buildings are reported to have been generally kept clean. The musafirkhanas at Hole-Narsipur, Kunigal and Channarayapatna are reported to have been partly used for the Excise Inspector's office, the Police Department and the Hindustani School, respectively, while those at Bowringpet, Sorab and Nyamti were for short durations used for residential purposes the first by the Plague Inspector, the second by the midwife and the Forest Ranger and the third by the Hospital Assistant and rents were collected in the last three cases in accordance with the rules. It should be reported under what authority the musafirkhanas at Kunigal, Hole-Narsipur and Channarayapatna were allowed to be used as stated above and whether they have not been vacated and made available for travellers. The Presidents of the several Boards are requested to see that these buildings are set apart exclusively for the convenience of travellers and that previous sanction of Government is obtained in every case in which any building is required to be used for other purposes either wholly or in part.

15. *Conservancy Sanitation, etc.*—The amount spent under this head during the year was Rs. 38,976 against Rs. 39,697 in the previous year. The rules under the Village Sanitation Regulation were in force in 2,524 villages against 2,385 in the previous year. Of the 389 persons prosecuted for breach of the Sanitary Rules, 240 were convicted, the fines levied and credited to District Funds amounting to Rs. 298 as against Rs. 306 in the previous year. The decrease in the number of prosecutions on the Kolar Gold Fields is reported to be due to the increase of the conservancy staff and to efficient supervision. It is hoped that the total absence of prosecutions in the Kadur District is not due to the indifference and apathy of responsible authorities in the matter of enforcing the rules.

16. *Vital Statistics.*—The number of births and deaths registered was 82,753 and 105,702 against 91,916 and 76,292 respectively in the previous year. Cholera prevailed in all the districts and accounted for no less than 10,271 deaths, of which 7,597 occurred in the Mysore District. Small-pox was the cause of 8,284 deaths, of which 4,622 occurred in the Chitaldrug and the Shimoga Districts.

Local Fund and Sanitary (Local Boards), dated 17th January 1908.

The President of the Kolar Gold Fields Sanitary Board reports that the statistics of births and deaths for Robertsonpet and the Cooly Colonies were not recorded and that arrangements have been made to do so by locating registration offices in those places and entrusting the work to the rent collectors. The President of the Kolar District Board reports that the registration work is still far from satisfactory and accurate and that the Amildars and other Inspecting Officers have been instructed to pay special attention to the correct registration of these statistics in future. Probably this state of affairs exists in the other districts also. The attention of the Deputy Commissioners is invited to Government Proceedings No. 881-91—Ml. 65-07-2, dated 30th July 1907, and they are requested to enjoin strict adherence to the orders therein contained.

17. *Water-supply.*—To prevent infection from cholera and to provide water in villages where scarcity for water was felt, 16 Abyssinian tube wells were sunk and used in the districts of Bangalore, Mysore and Chitaldrug. It is reported that eight of them are in working order and useful to the people and the water tapped is wholesome and abundant.

18. *Amrut Mahal Bulls.*—The Comptroller's preliminary accounts show that Rs. 75 and Rs. 37-8-0 were spent for the purchase of bulls in the Shimoga and Kadur Districts respectively, but the President of the Kadur District Board reports that no bulls were maintained in his district. The discrepancy requires explanation which the President will submit separately as early as practicable.

19. *Cattle Shows.*—Cattle shows were held at (1) Nundy in the Chikballapur Taluk, (2) Chunchankatte in the Yedatore Taluk, (3) Kudli in the Shimoga Taluk, and prizes awarded to the exhibitors of best cattle. It is not understood why the President of the Bangalore District Board makes no mention of the show held at the Ghate Subramanyaswami Jatra in the Dodballapur Taluk.

20. *American Ploughs.*—Of the ploughs purchased in 1904-05 in the Mysore District, one was sold to a raiyat at Saligram, two given out for use in the Krishnarajpete Taluk and one to the experimental farm opened at Mysore in connection with the Normal School.

21. *Local Funds General.*—The receipts during the year amounted to Rs. 1,76,656 exclusive of the opening balance of Rs. 41,135 at the credit of the fund on 1st July 1906. Of this Rs. 1,53,080 were spent as detailed in the appended Statement No. IV, leaving a balance of Rs. 64,711 at the close of the year. The following are the more important of the works executed during the year by the Public Works Department :—

	Work	Estimate	Outlay during 1906-07	Outlay up to end of 1906-07
		Rs.	Rs.	Rs.
1.	Bridge across the Hemavati	82,011	19,664	75,451

3.	Improving the Bisle Ghat on Sukravarasante Subramanya road	71,417	10,165	77,772

22. *General.*—Government note with satisfaction the interest evinced by the non-official members in the administration of local affairs enrtusted to these Boards.

Letter No. 296, dated 6th November 1907, from the President of the District Board, Mysore, reporting that the opening balance in favor of the District Board on the 1st July 1907 is Rs. 1,03,094 as per preliminary accounts of the Comptroller against Rs. 88,445 in accordance with the budget estimates for 1907-08 and soliciting sanction for the marginally noted additional grants for the current year.

Rs. 29,536 for 'B. Incomplete works.'
„ 1,627 for special repairs of Seringapatam-Channarayapatna road
„ 390 for a tunnel on French Rocks Station-Nelligere road.

Rs. 31,553

No. 6885-94—L. B. 182-07-2, DATED BANGALORE, 20TH JANUARY 1908.

ORDER THEREON.—The actual opening balance in favor of the Mysore District Board on 1st July 1907 is Rs. 1,04,424. This large difference between the actual opening balance and that shown in the budget estimates is due to the estimates having been framed without reference to the actuals for the previous years for the months for which they were available at the time the estimates were framed and to the increase or decrease of receipts and expenditure anticipated for the remaining months of the year. This is not satisfactory. The budget estimates should be framed on the basis of the revised estimates for the past year and due provision made for works after a proper forecast of the works whether original or incomplete expected to be carried out during the year is decided.

2. Having, however, regard to the fact that a large number of the incomplete works has already been started and partially executed though payment for the portions executed was not made prior to 30th June 1907, Government are pleased to sanction an additional grant of Rs. 31,589 for the following items with the hope that all the works will be completed during the current official year:—

(*a*) Rs. 29,536 for B. Incomplete works.
(*b*) „ 1,656 for the special repairs of Seringapatam-Channarayapatna road including charges for establishment and tools and plant.
(*c*) „ 397 for adding two vents to a tunnel in the French Rocks Station-Nelligere road including charges for establishment and tools and plant.

The budget estimates of the Mysore District for 1907-08 as now revised stand as shown below:—

Proceedings of the Government of His Highness the Maharaja of Mysore, Local Fund and Sanitary (Local Boards), dated 28th January 1908.

No. 7383-97—L. B. 269-07-4, DATED BANGALORE, 28TH JANUARY 1908.

ORDER.—The following instructions are issued to regulate grants from the Local Funds General and the preparation of budgets therefor:—

The grant on account of works to be executed by the Public Works Department will for the present be limited to Rs. 70,000 and that for works to be executed by the Revenue Department to Rs. 12,000.

2. On or before the 1st January of each year the Deputy Commissioners of Districts shall submit to Government lists of works requiring to be urgently executed by the Revenue Department during the ensuing official year but which cannot be carried out from the District Funds without a grant-in-aid from the Local Funds General. These lists will be scrutinized and a consolidated statement prepared in the General and Revenue Secretariat on or before the end of February. No works for which District Boards can afford funds are to be included therein and the aggregate cost of the works should not exceed the maximum limit of Rs. 12,000 for works to be executed by the Revenue Department. Works to be executed in Municipal towns should not be included in these lists except in very special cases with the sanction of Government, in regard to which suitable grants-in-aid will be given.

3. The Chief Engineer shall likewise send before the end of February a list of works costing not more than Rs. 70,000 requiring appropriation during the ensuing year from the Local Funds General.

4. The Inspector-General of Education and the President of the Mysore City Municipality should on or before the same date submit statements showing the estimated receipts and expenditure on account of Industrial Schools, the Indigenous Hospital and other institutions whose revenue and charges are credited and debited to Local Funds General.

5. The Revenue Commissioner will also similarly submit estimates of revenue and expenditure as regards the Dasara Exhibition and other similar items under his control.

6. The Comptroller shall on or before the 15th March submit statements showing the actual receipts and expenditure during the previous year and the estimated receipts of the ensuing year.

7. The Local Fund Branch of the General and Revenue Secretariat shall on or before the 15th April prepare consolidated statements and send them to the Financial Branch for scrutiny and the budget will finally issue not later than the 15th June of each year.

No. 6862-8—Ml. 77-07-6, DATED BANGALORE, 17TH JANUARY 1908.

ORDER THEREON.—On a careful consideration of all the arguments adduced f and against the proposed amalgamation of the Board of Trustees with the Municip Council, Government have come to the conclusion that it is necessary to contin the Board of Trustees as a separate body distinct from the Municipal Council b that the Board does not require any longer the services of a whole-time Chairma and that the Deputy Commissioner may be appointed ex-officio Chairman. Th Government of His Highness the Maharaja are of opinion that while the appoin ment of the Deputy Commissioner as Chairman will throw additional onerous duti on him, there are on the other hand certain considerable advantages in entrustir him with the charge of this department. During the past four years of the Board working considerable experience has been gained and the programme of the work be done has been clearly laid down. The responsibilities of the different sections the Board have been defined and the officials have also acquired considerable e perience in dealing with the people and carrying on the operations, and what w be chiefly required of the Chairman will be to exercise watchfulness and gener control over the working of the Board and bring his influence to bear on the officia in charge of the different sections. The bringing of the Municipal Council and th Trust Board under one head will, in addition to securing economy in cost, be al the means of removing friction that has existed between the Board of Trustees ar the Municipal Council and furthering the future entire amalgamation of the tw bodies when the special work on which the Trust Board is now engaged is com pleted. The Municipal Vice-President having since been relieved of the mo onerous of his duties, *viz.*, charge of the conservancy establishment, will be able carry out the work of acquisition, and the Executive Engineer of the Board Trustees may be relied upon to carry out satisfactorily both the work of demolitic and construction. Under these circumstances Government are pleased to direct, a tentative measure, that the Deputy Commissioner and President of the City Mun cipal Council shall also be the Chairman of the Board of Trustees.

2. Government also consider that it would be advantageous to have the Healt Officer of the Mysore City Municipality and the Deputy Sanitary Commissioner o the Board of Trustees and that when this is done, it is unnecessary that the Distri Medical and Sanitary Officer should have a seat on the Board. The City of Myso Improvement Regulation will be amended accordingly.

Local Fund and Sanitary (Municipal), dated 17th January 1908.

3. The establishments now working under the Board are also capable of considerable reductions and Government therefore direct that the following reductions be effected immediately.

I. Reductions in the Chairman's Office establishment—

		Rs.
1.	Manager (Rs. 75-5-100)	100
2.	Assistant Accountant	25

2.	Three Sub-Overseers at 50 + 15	195
3	Three Mestris at 20 to 25 + 7½	97½
4.	Four clerks {3 on Rs. 20 / 1 on „ 15}	75
5	Four peons on Rs. 6 each	24
		861½×12 10,338 a year.

4. The annual grant for the Mysore City Improvement will, with effect from the year 1908-09, be restricted to three lakhs of rupees inclusive of the opening balance in favor of the Board and its income derived from properties.

5. Separate orders will issue as regards the date on which the Chairman should hand over charge of his office to the Deputy Commissioner.

Proceedings of the Government of His Highness the Maharaja of Mysore, Local Fund and Sanitary (Municipal), dated 24th January 1908.

READ—

Correspondence ending with letter No. 121, dated the 27th August 1907, from the Deputy Commissioner and President of the Municipal and District Boards, Mysore District, submitting, as called for in para 2 of Government Proceedings No. 3995-7—Ml. 392-05-10, dated the 16th November 1906, the marginally noted two estimates in connection with improving the sanitation of the Seringapatam town, stating that the first estimate may, as suggested by Chief Engineer, be dealt with by the Sanitary Department and that the District Board will contribute one-third of the cost of the second estimate, the remaining two-thirds being contributed from Local Funds General, the finances of the Seringapatam Municipality being very poor and submitting a copy of the resolution of the District Board dated the 16th February 1907, that it is not possible to decide the question of contribution from District Funds towards the water-supply and drainage-projects of the Seringapatam town in the absence of the projects.

1. For closing the underground channel in the Seringapatam town ... ... Rs. 14,332
2. For clearing silt from Karanjis and channels in the Seringapatam town. Rs. 6,770.

No. 7191-204—Ml. 379-06-8, DATED BANGALORE, 24th JANUARY 1908.

ORDER THEREON.—The water-supply and drainage-projects of the Seringapatam town are awaited from the Chief Engineer.

2. Government regret that the financial condition of the Local Funds General does not permit of the expenditure on the estimate for clearing silt from karanjis and channels in the Seringapatam town being incurred during the current official year.

3. The President is informed that in the opinion of Government a great many of the existing hopelessly bad houses in the Seringapatam town should be demolished and the sites cleared before much money is spent on drainage and water works.

4. The Sanitary Commissioner is requested to submit, in consultation with the Central and District Sanitary Boards and the respective local bodies concerned, a definite programme for the sanitary works to be executed in the immediate future in Municipal towns and rural tracts, so that funds may be provided in the next three years' budgets from District Funds, Municipal Funds and the Local Funds General.

No. 7293-308—ML. 153-07-24, DATED BANGALORE, 27TH JANUARY 1908.

ORDER THEREON.—*Constitution of Municipalities.*—During the year under review there were 88 Municipalities as against 87 in the previous year, the increase being due to the reconstitution with effect from 1st July 1906 of Saligram in the Yedatore Taluk of the Mysore District into a non-regulation Municipality.

2. The law governing the Municipal Councils of the Bangalore and Mysore City Municipalities was from the 1st January 1907 superseded by Regulation No. VII of 1906. Rules and Bye-laws under this Regulation are under preparation. In the meanwhile those under the old regulation continue to be in force. Action is also being taken to constitute all the District head-quarters and important towns with a population of 5,000 and over into Municipalities under the new regulation.

3. In the Bangalore City the appointment of a full-time President was abolished and the Deputy Commissioner was appointed *ex-officio* President with an officer of the grade of Assistant Commissioner as Vice-President, as in the Mysore City Municipality. In the Sringeri Municipality, the Agent of the Sringeri Matt continued to be the President with the Deputy Amildar of the Jahgir as Vice-President till January 1907 when on account of the absence of the Agent with the Guru on tour, the Assistant Commissioner in charge of the Jahgir estates was appointed President. In the other Municipalities the Deputy Commissioners continued to be the *ex-officio* Presidents, while the functions of the Vice-Presidents devolved on the Treasury Assistant Commissioners in the head-quarter Municipalities and on the Amildars and Deputy Amildars in Taluks and Sub-Taluks.

4. These Boards had altogether 878 members, of whom 308 were *ex-officio*, 21 elected (in the Bangalore and Mysore Cities only) and the rest nominated by Government. The general elections, which remained incomplete in the Bangalore City at the end of the previous year, were completed during the year. Monthly meetings were held regularly in all the Municipalities except the following where the defect was chiefly due to want of a quorum :—

11 Meetings		10 Meetings		9 Meetings
Dodballapur	...	Nelamangala	...	Sira.
Mulbagal	...	Gundlupet	...	Talkad.
French Rocks	...	Bannur	...	...
Arsikere	...	Chikmagalur	...	...
Channagiri	...	Kolar (2 special meetings also held)		...
Tirthahalli	...	...		...
Tarikere	...	...		...
Sringeri	...	...		...
Chitaldrug	...	...		...
Hiriyur	...	...		...

In Sringeri and Channagiri the omission is reported to be due to the absence of both the President and the Vice-President from head-quarters. No explanation has been furnished for the omission to hold the prescribed number of meetings in Gundlupet, Bannur, Talkad and French Rocks.

The attendance at meetings was on the whole satisfactory but it is to be regretted that the Senior Surgeon, who is an *ex-officio* member of the Municipality of Bangalore City, did not attend any meeting, while the Executive Engineer of the

Amildar of the Mysore Taluk attended only 3, 1, 1 and 2 meetings respectively. Nineteen members in 11 of the minor Municipalities are reported to have absented themselves either from three or more consecutive meetings or six or more meetings in all during the year. In the Mulbagal Municipal Board there was a preponderence of officials owing to vacancies among the non-officials.

5. *Financial position.*—The year opened with a balance of Rs. 3,93,166 and the total income and expenditure amounted to Rs. 8,09,795 and Rs. 7,44,707 against Rs. 8,79,218 and Rs. 7,94,570, respectively, in the previous year as detailed in appendices Nos. II and III. The decrease under receipts was due chiefly to the short collections under house and mohatarfa taxes and absence of large loans and grants-in-aid from Provincial Funds as in the previous year, and that on the side of expenditure was chiefly under public works and water maintenance charges in the Bangalore City. The largest revenue was as usual contributed by the Bangalore and Mysore Cities while in the remaining Municipalities the revenue ranged between Rs. 27,301 in Shimoga and Rs. 649 in Bagepalli (Kolar District). The financial position of the Municipalities at Kankanhalli, Hunsur, Heggaddevankote and T.-Narsipur was not satisfactory and the Municipalities had at the end of the year minus balances of Rs. 965, Rs. 225, Rs. 146 and Rs. 123 respectively.

6. *Taxation.*—The revenue from taxation including Octroi, tolls and water tax was Rs. 1,89,982 in the Bangalore City Rs. 1,35,220 in the Mysore City and Rs. 3,19,270 in all the other Municipalities. The incidence of taxation per head of population was Rs. 2-11-9 in the Bangalore City, Rs. 1-15-9 in the Mysore City and Re. 0-13-7 in the other towns.

7. *Octroi.*—The income from this source was Rs. 2,48,773 or Rs. 2,002 less than that in the previous year, the decrease being chiefly under cocoanuts, ghee and timber.

8. *Tolls.*—The amount realized under this head was Rs. 75,597 or Rs. 786 less than that in the previous year. The income in the Mysore City remained steady while that in Bangalore showed a decrease of Rs. 3,340 mainly due to the existing arrears of Rs. 2,471 outstanding at the end of the year, the increase in the towns of Nanjangud and Shimoga being due to increased traffic.

9. *House and Mohatarfa taxes.*—The income from this source was Rs. 2,47,239 or Rs. 18,650 less than that in the previous year. The decrease was chiefly in the Bangalore City where the tax on houses and mohatarfa was less by Rs. 12,308 and Rs. 9,366 respectively than that realized during the previous year.

10. *Contributions and grants-in-aid.*—The amount credited under this head was Rs. 34,329 against Rs. 56,322 in the previous year, the absence of grants similar to those made during the year 1905-06 for the special repairs of roads in the Bangalore and Mysore Cities accounting for the decrease.

11. *Demand, Collection and Balance.*—The total demand including the arrears of previous years amounted to Rs. 10,35,182, of which a sum of Rs. 7,86,905 was either collected or remitted leaving Rs. 2,48,277 uncollected at the end of the year. Of this Rs. 2,28,431 or 92 per cent was under house and mohatarfa taxes, the demand under which amounted to Rs. 5,05,551 as detailed below :—

Municipalities	Demand	Collection including remission.	Balance

Local Fund and Sanitary (Municipal), dated 27th January 1908.

The arrears in all the districts except Chitaldrug are heavy and due action on the part of the Presidents is called for. It is to be regretted that the Municipalities of Bangalore and Mysore which maintain a special agency for collecting taxes are the worst in point of arrears. A large part of these arrears is probably irrecoverable and indeed the report for the Bangalore City Municipality accounts for more than Rs. 43,000 as such. There is thus the less reason for encumbering the accounts with them, and it behoves the Presidents and Vice-Presidents concerned to deal with them all effectually and adopt the steps necessary for finally writing them off the accounts.

12. *Public Works.*—The expenditure under this head amounted to Rs. 2,29,767 or Rs. 22,965 less than that of previous year. It was also less than the Budget grant (Rs. 3,59,897) by Rs. 1,30,130. This includes the sum of Rs. 6,943 spent for removing congestion in the Bangalore City.

13. *Charitable grants.*—Including the sum of Rs. 23,669 shown in the accounts of the Comptroller under "Contribution," the amount spent under this head was Rs. 46,473. During the year under review the Bangalore City Municipality was relieved of the cost of maintaining the Maternity Hospital and a new Dispensary was opened near the Weavers' Lines in the Mysore City. The Mysore City Municipality continued to bear two-thirds of the cost of the Maharani's Hospital at Mysore. There were in all 67 Dispensaries and Hospitals subsidized from the Municipal Funds which also supported in whole or in part 57 midwives in addition to the three employed in the Maharani's Hospital at Mysore. The number of patients treated in these Hospitals and the labour cases attended to by the midwives during the year were 590,545 and 3,936 respectively.

In addition to these, the Indigenous Hospital at Mysore and the Vaidyasalas at Tarikere, Birur, Chikmagalur, Vadigenahalli and Chitaldrug were partly maintained at the cost of Municipal funds and grants-in-aid to three Unani and one Hindu Vaidyasala in the Mysore City and to native pandits in each of the Devanhalli, Seringapatam and Hunsur Municipalities were also made from the said funds.

The Saint Martha's Hospital at Bangalore continued to receive a monthly grant of Rs. 200 from the City Municipality but the statistics regarding the patients treated therein have again not been embodied in the Appendix No. XVII. The Presidents should see that the numbers of patients treated in all the institutions for which contributions and grants are made from Municipal funds are incorporated in Appendix No. XVII below the totals relating to the Local Fund Dispensaries.

14. The number of persons vaccinated during the year was 12,561 against 12,670 in the previous year. There was a general decrease in the number of operations performed in all the districts except Kolar, Shimoga, Chitaldrug and Sringeri in the Kadur District. The Municipalities of Hassan, Seringapatam, Kolar and Chikmagalur employed vaccinators while in other towns the Taluk vaccinators paid from State funds performed the work. The large decrease of 610 cases in the Tumkur District is stated to be due to the fact that under the new Kurnool system tried during the year the vaccinators could not pay much attention to town work but had to visit many other places. The decrease in the Hassan District was due to the prevalence of plague in Hassan and Alur and to the want of interest shown by the Municipal authorities and the vaccinator at Arsikere. No figures have been entered against Belur on the ground that the Hospital Assistant did the vaccination work in the town. This is not correct. The statement should be made to include all cases of vaccination in Municipal towns whether they are performed by special vaccinators or medical subordinates.

The following discrepancies occur in the statistics furnished for the year 1905-06, care should be taken to avoid such mistakes in future :—

15. *Conservancy and sanitation.*—Exclusive of the cost of drains, water-supply and other sanitary works shown under VIII. Public works and of works executed by the agency of the Public Works Department out of Provincial Funds and by the Mysore City Improvement Trust Board, the Municipal Boards spent on conservancy and sanitation Rs. 186,216 or Rs. 8,372 more than in the previous year, (but Rs. 8,007 less than the budget grant of Rs. 1,94,223), the increase being chiefly due to the employment of certified Sanitary Inspectors in some of the Municipalities and of an additional staff of sweepers.

16. *Prosecutions for breach of rules.*—In the Bangalore City nine cases involving ten persons were prosecuted for breach of octroi rules, of whom nine were convicted and sentenced to pay fines amounting to Rs. 32 in all, while in Mysore, 58 cases involving 64 persons were taken before the Magistrate for breach of the provisions of the Municipal Regulation with the result that 19 persons were convicted and fined Rs 105. The number of prosecutions instituted in the Bangalore City for breach of sanitary rules is given as 82, while the number of persons involved therein is entered as only 17, all of whom were convicted and fined to the extent of Rs. 38. One hundred and eighty-six cases in the minor Municipalities involving 193 persons were prosecuted, of whom 110 were convicted and fines amounting in all to Rs. 138 recovered.

17. *Drains and removal of congestion.*—In the Bangalore City drains to the length of 8,457 feet were constructed and a sum of Rs. 6,943 spent for removing congestion. The Sringeri drainage works are reported to be progressing very slowly and to require Rs. 3,437 in addition to the sum of Rs. 9,527 already spent as under original estimate. A special report will be called for, and separate orders will issue regarding the improvement of the drainage and sanitation of the town of Shimoga. In the Kolar District, the services of a special surveyor are being utilized for the purpose of preparing schemes of drainage for all the Municipalities.

18. *Water-supply.*—The Executive Engineer of the Water-Supply Division having brought to notice that, beyond paying the charges for the up-keep of the machinery, the Mysore City Municipality never realized nor felt the responsibility of maintaining the machinery and that the staff was quite inadequate to maintain the system in working order and having further suggested the desirability of placing the water works under the control of the Public Works Department, the Municipality paying a fixed yearly contribution for working expenses, etc., the management of the water works was transferred to the Public Works Department during the year with the concurrence of the Municipal Council and the Chief Engineer, the Municipality being required to pay an annual contribution of Rs. 12,000 for maintaining them and Rs. 5,000 for renewal of machinery, etc. As the existing turbines did not supply sufficient water for city consumption especially during summer when the supply was also intermittent, a steam engine was installed at Belagola in addition to the turbines as a temporary measure. It is noted that during the last summer the supply of water for domestic purposes did not fail but the actual working charges to the Municipality on this account amounted to Rs. 25,473 in addition to the annual contribution of Rs. 12,000.

The contribution payable by the Bangalore City Municipality for the maintenance of the Chamarajendra Water Works was fixed at Rs. 30,000 instead of the entire income from tolls and water tax as heretofore. It is reported that the Norea pump at Closepet did not work satisfactorily. Water scarcity was to some extent felt in this town and also in Channapatna, Nelamangala, Dodballapur, Anekal, Arsikere, Channarayapatna, Molakalmuru and Hosdurga. A project for the supply of water to Harihar was sanctioned at a cost of Rs. 16,790 from Provincial Funds. A special report will be called for from the President of the Municipalities in the Chitaldrug District in regard to the improvement of water-supply and sanitation of the Hiriyur town.

19. *Vital statistics.*—The number of births and deaths registered during the year was 11,371 and 17,986 against 10,874 and 12,210 respectively in the previous year. The number of deaths from small-pox was 698, of which so many as 265 were recorded in the Shimoga District. Cholera accounted for no less than 1,639 deaths, of which 782 occurred in the Mysore District. No births were registered in the Gubbi and Kunigal towns, while the figures furnished for Bowringpet are 1,109 births and 1,304 deaths against 116 and 123 respectively in the previous year. The figures do not appear to be correct and the Presidents of the Kolar and Tumkur Districts are requested to have them verified.

Local Fund and Sanitary (Municipal), dated 27th January 1908.

The increase in the number of births and deaths in the Kolar District is stated in the body of the report to be respectively 200 and 1,104, while the statistics furnished in Appendix XIV show an increase of 910 and 1,204 respectively. This requires explanation.

The registration of vital statistics is reported to be unsatisfactory in the Kolar District and is probably no better elsewhere in the State. The Deputy Commissioners and Presidents should see to this.

20. *Education.*—During the year the Bangalore City Municipality was relieved of the charges of secondary education and this accounts chiefly for the decrease of Rs. 5,843 in the expenditure incurred on education.

21. *Loans.*—The amount repaid during the year on account of principal and interest in accordance with the statement of loans furnished by the Comptroller is Rs. 12,039 and Rs. 4,927, while the same is entered in the preliminary accounts now submitted as Rs. 9,653 and Rs. 4,180 respectively. The difference is apparently due to the omission in the accounts of Rs. 1,726 and Rs. 1,404 repaid by the Tyamagondlu and Dodballapur Municipalities and to the interest of Rs. 747 paid by the Sringeri Municipality having been erroneously included under repayment of loan. The Comptroller is requested to have these discrepancies rectified in the final accounts. The balance payable at the end of the year by all the Municipalities was Rs. 1,734 towards interest and 49,550 towards principal. It is observed that out of the loan of Rs. 5,000 sanctioned for the acquisition of lands for the Durgigudi extension in the Shimoga town, a sum of Rs. 2,050 only was drawn during the year.

22. *Suits.*—No suits were filed by or against the Mysore City Municipal Council and the required information has not been furnished in the report of the Bangalore City, in spite of repeated instructions issued from time to time. The President is requested to explain the omission and to see that the recurrence thereof is guarded against in future.

23. *Avenues and Parks.*—The President of the Municipalities in the Kolar District and the President of the Bangalore City Municipal Council are the only officers who have made any reference to the condition of avenues and parks in their respective circles. It is desirable that the other Presidents of Municipal Boards should insert a para on this head in their future reports.

24. *General.*—The Municipal administration during the year has on the whole been satisfactory and Government trust that the members of the several Boards will take more interest and endeavour to improve the sanitation and water-supply of their respective towns and preserve the health of the areas entrusted to their charge.

Proceedings of the Government of His Highness the Maharaja of Mysore, Local Fund and Sanitary (Medical), dated 13th January 1908.

READ AGAIN—

Government Proceedings No. 674-88—Med. 312-05-2, dated 21st July 1906, issuing instructions regarding the adjustment of the expenditure incurred on account of construction and repairs of Local Fund Dispensaries.

No. 6690-702—MED. 28-07-5, DATED BANGALORE, 13TH JANUARY 1908.

ORDER THEREON.—In accordance with the procedure laid down in the order read above, the actual amount required by the Public Works Department on account of construction and repairs of Local Fund Dispensaries is recovered by the Comptroller and credited in the first instance to the head "Medical" and an equivalent transfer of grant is then made to the Public Works Department. The Comptroller considers that this procedure is not satisfactory and suggests in view to avoid the inflation of the civil estimates involved in the procedure referred to that the Public Works Department while providing in the provincial portion of their budget for the provincial share ($\frac{1}{3}$ or $\frac{1}{2}$ of work estimates) should similarly show the District Fund and Municipal share in the Local Fund Section of their budget, and that the necessary addition to the provincial grant should be made in the budget estimates by reducing the Local Fund grant by the same amount, credits for the recovery from the Municipal and District Funds being given direct to the Public Works Department. The procedure suggested by the Comptrolier and concurred in by the Secretary to Government, Public Works Department, is approved and will be adopted in future in adjusting the cost of construction and repairs of dispensaries.

2. As regards credits to the Public Works Department, the actual amounts recovered by the Comptroller from the District and Municipal Funds on account of construction and repairs of dispensaries, should be credited to the Public Works Department under the head "XXII. Public works in charge of Public Works Officers' contributions."

Government Proceedings No. G. 2070-107—G. F. 142 of 1903-04, dated the 13th October 1904, directing that Acts, Regulations, Rules and other matters published in the official Gazette, Departmental and State Administration Reports, be made available for sale to the public.

2. Government Proceedings No. G. 5078-9—G. M. 100-06-11, dated the 9th February 1907, issuing further instructions in regard to the sale of official publications to the public and directing that such publications be priced in accordance with the scale prescribed in the Government Proceedings referred to above.

No. G. 4320-61—G. M. 174-07-4, DATED BANGALORE, 24TH JANUARY 1908.

ORDER THEREON.—Government are pleased to direct that, in addition to the official publications mentioned above, all orders placed at the disposal of the Press be made available for sale to the public. The Superintendent of the Government Press and Compiler of the *Mysore Gazette* will see that, as soon as the list of papers placed at the disposal of the Press is sent for publication in the Gazette, the orders included therein are priced according to the rates prescribed in the Government Order of the 13th October 1904 and that the list is notified in the Gazette with the price noted against each order.

2. Government further direct that important orders of general interest be translated into Kanarese and printed in the *Mysore Gazette* and that copies thereof be made available for sale to the public at prices fixed as above. The Secretaries in the several Departments will indicate, when orders are decided to be placed at the disposal of the Press, what orders should be translated into Kanarese, and take steps to have the same translated and printed.

3. The Superintendent of the Government Press will be informed when orders are sent to him to be printed how many printed copies of each are required. The other Secretariats are requested to send without delay to the General and Revenue Secretariat a duly certified copy of every order placed at the disposal of the Press so as to facilitate the timely preparation of the list of such papers for publication in the Gazette, translations of such of the orders as are selected for translation being sent direct to the Compiler of the *Mysore Gazette* for publication.

4. As in the case of other official publications the sale of these orders shall be entrusted to the Curator, Government Central Book Depot. He will include the financial result of the arrangements ordered in paras 1 and 2 above in the report he has to submit to Government under para 1 of Government Proceedings No. G. 5078-9—G. ALSO—Thammanna Gowda, Sidde Gowda, Lakki Gowda, Kale Gowda and other residents of Malali, Halekote Hobli, Hole-Narsipur Taluk.

SUBJECT.

Prayer for reconsideration of Government Order No. 3804 (Muzrai), dated 15th April 1905, passed in Appeal No. 84 of 1904-05 recognizing the counter-petitioner's claim to the pujarishp of the Sri Lakshmidevi temple at Malali.

The facts of the case appear sufficiently from the Government decision now sought to be reviewed. The appeal in which that decision was passed was between the villagers of Malali in the Hole-Narsipur Taluk and pujari Venkatappa. The present review application is from the villagers of Melhalli in the Hassan Taluk and also of Malali in the Hole-Narsipur Taluk, who were not parties to the appeal in question. They claim to have an interest in the subject matter of the litigation inasmuch as the pujaris of the Sri Lakshmidevi temple at Malali are also pujaris of the Sri Narsimhadevaru temple in their village of Melhalli. The grounds urged for the review are that the counter-petitioner Venkatappa is the son of the illegitimate daughter of the widow of the last pujari Chikkadi Venkata and that a daughter's son is not entitled to succeed to the office of pujari held by his maternal grandfather.

The case having been remanded to the Deputy Commissioner for a formal enquiry on the foregoing issues, that Officer finds that Timmi, mother of the counter-petitioner is the legitimate daughter of the last pujari Chikkadi Venkata and that there has been no satisfactory proof as to the existence of any custom among the pujaris in question forbidding the succession of the daughter's son to the pujarishp.

DECISION.

Under the foregoing circumstances, the Government are pleased to accept the finding of the Deputy Commissioner regarding the legitimacy of the respondent Venkatappa's mother Thimmi and the non-existence of any local custom disentitling a daughter's son from succeeding to a pujari hak.

The review petition is accordingly rejected.

Letter No. 276—39, dated 17th December 1907, from the Deputy Commissioner, Shimoga District, reporting on the excess expenditure incurred during the car festival of the Sri Hutcharayaswami temple at Shikarpur.

No. 3052-60—Muz. 35 of 1895, DATED BANGALORE, 13TH JANUARY 1908.

ORDER THEREON.—The Deputy Commissioner Mr. M. Narain Rao reports that a sum of Rs. 15-12-5 for the items noted in the margin was unauthorizedly spent by Mr. Ahobala Rao, who was formerly Amildar of the Shikarpur Taluk, during the car festival of the Sri Hutcharayaswami temple at Shikarpur, that these items were disallowed by the Deputy Commissioner in the bill of actual expenditure incurred therefor, and that the reasons set forth by the Amildar for having incurred the expenditure are not satisfactory, and recommends that the excess amount unauthorizedly spent may be recovered from Mr. Ahobala Rao under whose authority it was incurred.

Rs 5-8-0 paid to the peons and daffedars of the taluk.
,, 10-0-0 paid for a nautch party.
,, 0-4-6 dakshine to recognized persons.

2. The Government observe that the item relating to the payment of Rs. 10 to tafe woman on the occasion is highly objectionable as directed in Government Proceedings No. 446-54, dated 8th February 1892. The payment of Rs. 5-8-0 to the peons and daffedars of the taluk is also objectionable as it was their duty to give their services on the occasion as Government servants. The amount paid as dakshine to Brahmins is however excused. Government agree with the Deputy Commissioner that the objectionable expenditure unauthorizedly incurred should be recovered from Mr. Ahobala Rao. The Inspector-General of Police is accordingly requested to recover the amount of Rs. 15-8-0 from Mr. Ahobala Rao (who is now Head-quarter Police Inspector, Kolar) and remit it to the Amildar of the Shikarpur Taluk to be credited to the funds of the temple and to intimate the fact to this office.

Correspondence ending with letter No. 95, dated 6th August 1907, from the Deputy Commissioner, Tumkur District, reporting on the alienation of a portion of the Inam lands endowed to the Jangam Matt at Manuvinkurke in the Koratagere Sub-Taluk.

Docket No. 98, dated 19th March 1907, from the Superintendent of Inam Settlements in Mysore, forwarding an extract of the Inam Register pertaining to the grant of Inam lands endowed to the said Matt.

No. 3297-9, DATED BANGALORE, 21ST JANUARY 1908.

ORDER THEREON.—The Jangam Matt at Manuvinkurke in the Koratagere Sub-Taluk is a Muzrai institution endowed with the marginally noted Devadaya Inam lands. The Deputy Commissioner reported that out of the Inam lands, Survey Nos. 2, 24 and 32 were alienated from the Matt by sale to one Jwalanappa in April 1890 by the manager of the Matt, Rudraiya, and his deceased father Veeriah who was the former manager of the institution; and that Jwalanappa subsequently sold the lands to one Narasimha and his son Dodda Narasa. It was further reported that the question of the alienation of the Dévadaya Inam lands having come up before the local authorities, Dodda Narasa deposed before the Deputy Amildar of the Koratagere Sub-Taluk that he was willing to restore the lands to the Matt. But from the records received from the Central Records, it is observed that the lands are not in the holding of Dodda Narasa, since they were re-purchased by Jwalanappa in a Civil Court sale in satisfaction of a decree passed by the Munsiff, as is evidenced by the court sale certificate. The shanbhog of Manuvinkurke has stated that the jodi of the Inam lands in question due for the years 1889-90 and prior thereto was paid by Veeriah, the late manager of the Matt and the alienor of the Inam lands and that the jodi, etc., due for the subsequent years was paid by the alienees. The Deputy Commissioner is of opinion that as the Inam lands in question were alienated in 1890, *i.e.*, subsequent to the 31st January 1853, the lands are liable to be resumed and restored to the Matt under clause B of Rule II of Notification No. 266, dated the 17th November 1877. In reply to further enquiries made from this office, the Deputy Commissioner reports, in his communication read above, that Jwalanappa is not willing to restore the land without receiving the amount of the Civil Court decree together with the court costs; that there is no Matt in existence now and that the place where it stood is now a vacant site; and that Rudraiya called his dwelling house to be the Matt in question, which the Deputy Amildar of the Koratagere Sub-Taluk reported, on inspection, was not worth the name. The Deputy Amildar recommends that the Inam lands in question may be resumed to Government and their present enjoyer Jwalanappa ordered to pay full assessment.

Village	S. No.	Dry, wet or garden	Extent A. G.	Assessment Rs. a. p.	Jodi Rs. a. p.
Manuvinakurke	2	Dry, wet and garden	3 35	11 12 6	15 4 0

Dasalkunte	16	do	1 35	1 12 0	0 6 0
			12 12	19 14 6	15 10 0

2. Under these circumstances, the Government are pleased to direct that as originally recommended by the Deputy Commissioner the alienation of the Devadaya Inam lands, *viz.*, Survey Nos. 2, 24 and 32 belonging to the Jangam Matt, should be cancelled and the lands resumed from the alienee under clause B of Rule II of the Notification of 1877. The Deputy Commissioner is requested to take the needful action accordingly. The Government further direct that as there is actually no Matt in existence, the lands cannot be restored to the institution, but that they should be temporarily attached and managed by the Amildar, the question of restoring the lands to the Matt being considered when the Matt is brought into existence.

READ—

(1) Government Proceedings (P. W.) No. 823-35—4501-13, dated 19th September 1900, approving for adoption of programme marked B of bridge building to be carried out in the State.

(2) The following Note dated 28th October 1907, by the Public Works Secretary:—

In Proceedings (P. W.) No. 823-35—4501-13, dated 19th September 1900, Government approved of a programme (B) of important bridges to be undertaken from " Local Funds General " during the next few years. Out of the 32 bridges therein proposed to be built (*viz.*, 21 in the Eastern Circle and 11 in the Western Circle), 6 bridges have been built during the the past six years, *viz.*, items 2, 3, and 4 in the Eastern Circle and 1, 2, and 3 in the Western Circle.

2. An estimate, amounting to Rs. 2,45,215, for constructing a bridge across the Arkavati near Kankanhalli on the Bangalore-Mysore road (Item No. 1 in the Eastern Circle), was prepared and submitted to Government, but it was ordered to be postponed till the necessity therefor became more pronounced as the then Deputy Commissioner, Mr. H. H. Sparkes, considered that there was no urgent necessity for its construction.

3. The proposed bridge across the Tunga river at Tirthahalli on Koppa-Tirthahalli road (Item No. 5 in the Western Circle) was ordered in Government Proceedings No. R. 6208-9—R. M. 189-05-4, dated 23rd November 1905, to be substituted for the bridge over the Tungabhadra at Honnali on the Shimoga-Harihar road.

4. Last year, I considered that it would be desirable to revise the sanctioned Programme B, as there was little doubt that, in some districts at any rate, a modification in the order of urgency entered in this list would probably be necessary. I accordingly asked the Deputy Commissioners of Districts and the Superintending Engineers of Circles to submit revised programmes, omitting the bridges that had already been built or which are now under construction. The lists of these bridges are included in the accompanying statement marked Programme C. Out of the bridges noted therein, I have selected those bridges which I consider are the most urgent and I have entered them in Programme D, in the order of urgency which I personally consider they should be placed, for execution during the next ten years or so, by which time it may be necessary to change the order again.

5. I now solicit your orders on this Programme D, leaving over for future consideration the order of urgency of the remaining bridges in Programme C.

6. In the current year's Public Works Budget, an allotment of Rs. 10,000 has been provided under " Local Funds General " for the construction of the bridge across the Tungabhadra river at Honnali on Shimoga-Harihar road (Item No. 1 in above Programme D), and the project for this bridge will be sent up to Government for sanction in due course.

No. 47-58—300-11, DATED BANGALORE, 17TH JANUARY 1908.

ORDER THEREON.—The appended revised Programme D of important bridges proposed to be undertaken during the next ten years or so, in the order of urgency noted therein, is approved by Government as recommended in the Note read above, in modification of the Programme B sanctioned in Government Proceedings (P. W.) No. 823-35—4501-13, dated 19th September 1900.

Bangalore ...	1	14	Bandiballa	Dodballapur Ghat road	Palpal Dinne	25,000	At certain seasons of the year, this road is very largely used and the present halla is most inconvenient.
	2		Arkavathi	Bangalore-Mysore road *via* Kankanhalli	34th mile	2,45,000	No very great necessity for this bridge as the river is impassable for only a very few days in the year and there is another communication to Closepet
	3		Kodihalli Nalla	Kankanhalli-Kodihalli road	Near Kodihalli	90,000	Unimportant road and the bridge not very urgently required
Kolar	1		Markandeya stream	Budikota Railway feeder road	1 mile 3 furlongs	7,000	These streams are not fordable during rainy season for 2 or 3 days at a time as the floods rise to a height of 8 to 10 feet Early bridging of these is very desirable as the traffic between Budikota and Gold Fields is considerable
	2		Budikota stream	Do do .. .	8 ,, 1 ,, ...	6,000	
	3		Papagni river	Chintamani-Chelur road	17 miles 4 furlongs	30,000	A bridge of 5 arches of 30 feet span required.
	4	1	Kumudavati river.	Goribidnur-Maddagiri road	4th mile	10,000	The streams are rapid and treacherous.
	5	2	Nerlehalla	Do do	5 miles 2 furlongs .. .	5,000

	19		Do	Mulbagal-Goribidnur road	75 ,, 7 ,, ...	1,00,000	

Tumkur ...	1	3	Palanahalli Valley	Tumkur-Bellary road	Near 2—65 mile	12,000	The road runs over Palavalli tank bund. The weirs are crossed by ramps. The left weir is kept one foot lower than the right weir. This tank is the biggest in Pavagada Taluk and discharges whenever tank fills continuously for 4 or 5 days and renders traffic difficult and dangerous. It is therefore desirable to build a tunnel. No other roads in Pavagada Taluk requires bridges as the rainfall is scanty and there is not much traffic on the roads.
	2	4	Huyaldinne halla, feeder to Handanahalli tank	Banavar-Sira road	6-52 mile near Huyaldinne ...	8,000	Very urgent. Approaches are very steep and during rainy seasons traffic entirely stops. Every year money is wasted in repairing the cause way.
	3		The combined hallas of Swarnamuki and Jayamangala streams ...	Thondibhavi-Maddagiri road	6th mile near Chinnasagara village.	60,000	
	4	8	Jayamangala river	Koratagerl-Baichapur road	8th mile near Baichapur ...	40,000

22	J 2264 Police 112-07-4	25	Chairman, Mysore City Improvement Trust Board	States that he may address the Inspector-General of Police on the subject of re-allocation of certain police stations in the Mysore City, proposed by him in his letter No. 642, dated the 10th December 1907.
23	J 2265 Police 119-07-3	25	Compiler, *Mysore Gaz.*	Notifies the appointment of Mr. L. E. O' Doherty, Chief Inspector of Police, Mysore City, as an acting Assistant Commissioner, 5th class, and his posting as Assistant Superintendent of Police, Kadur District, during Mr. T. F. Wilkinson's absence on privilege leave granted to him in Notification No. J. 1951-police 119-07-2, dated the 27th December 1907, or until further orders.
24	J 2272 Police 1-07	27	I.-G. of Police ...	States that Government see no reason to interfere on behalf of petitioner Krishnamachar, Police Inspector of Nagar Taluk, who appealed against the order of his reduction by the Inspector-General from the 6th to the 7th grade of Inspector.
25	J 2275-82 Police 115-07-1	27	Dy. Comr., Shimoga & other Dy. Comrs.	With reference to Subject No. 30 of the Representative Assembly of 1907, states that provision has already been made in clause 9 of rule 1 of the rules published with notification No. J. 1782—Police Mis. 65, dated the 26th December 1905, for the exemption of land holders of approved loyalty and good position from the operation of the provisions of the Arms Regulation, and that, as regards the members of the bar, the mere fact of their having been such for a period of five years does not of itself constitute a sufficient ground for the grant of such an exemption.
26	J 2295-6 Police 136-07-2	30	Dy. Comr., Mysore & I.-G. of Police	Directs the prosecution, for offences under section 3 of the Mysore Infant Marriages Prevention Regulation, of Erachary, Siddachary, Nanjachary and Gopal Jois who were concerned in an infant marriage case at Agara in the Yelandur Taluk.
27	J 2297-8 Police 135-07-2	30	I.-G. of Police & Comptr.	Accords sanction to the distribution of Rs. 80 among certain individuals of the Chitaldrug District for their plucky conduct in capturing a notorious criminal gang of Korachars headed by one Pichiga who had escaped from Sirsi Lock-up in 1902
